Subject: RE: Simon Cordell

Dear Angela Hague

I am writing this as I have an issue and I have been trying to resolve it with the new team my son has been put under but it seems I am having issues and therefore wondered if you could help as you was the last team to see Simon before the change over. It seems due to the change over to the new team they want do anything until they see my son, but I believe the mental health team has enough information on there system to be able to help in this matter which I will explain below.

As you maybe aware we were at court regarding Enfield Council and the neighbours case on the 09/08/2018 and the case against Mr Cordell was dismissed forthwith, the reason for this is I believe for 1st time the judge saw what Enfield Council has been doing along with the neighbours for a long time, I believe the Mental health team are well aware what my son has been dealing with and what he states has been ongoing since 2014 and it should be of record on the systems the hell he has been living with what the neighbours have been doing since 2014, I know the mental health team are aware what the neighbours have been doing to my son due to being there more then once when my son has shown video and audio to the mental health team.

I have asked more then once for the mental health team to help get my son move yet nothing has been done, and once again I am asking for help with this.

On the 09/08/2018 the judge ordered that Enfield Council move my son as the flat he is in is clearly not suitable, I also spoke to the judge about the need for a suitable two bedroom property so that my son can have a spare room for his family so they could stay with him and support him. the judge agreed but it is this part that Enfield council are trying to get out of without the help and input of the mental health team, saying it would be more suitable for two bedroom property so Simon can get support from his family, Enfield Council is willing to move my son and there is going to be a hearing with the panel on the 28/09/2018 regarding moving my son, but unless the mental health team does a report saying he needs a 2 bedroom Enfield Council will only move him to a 1 bedroom. I do feel my son needs support and a 2 bedroom would allow family member to stay with him and help him and try and get him to understand he does need help.

My son has been locked away on his own in the flat he is in since 2013 living in hell due to what the neighbours are doing he does not go out, he is not getting the contract with others, only when the family attend his home for a few hours, and due to what he is living with he

don't like people around there, which it has made it harder for the family to be there all the time to support him because of how and what he is living in with what the neighbours and Enfield Council has been doing.

Therefore I am asking for some help for a letter to be written from the mental health team saying a 2 bedroom would be more suitable as Simon could have someone with him and still be able to have his own space, as there would be a spare room for the family to stay in.

Regards

Lorraine Cordell
