

Priority Level	Definition
	would regain substantial independence if an alternative property were made available. *risk to life here does not include terminal illness or illnesses that involve unpredictable crises, e.g., xxxx.
B	An applicant's living conditions are unsuitable but their need to move is less urgent and not life threatening but if left unresolved, their quality of life will deteriorate
C	The applicant's living conditions cause them difficulty in carrying out their daily activities but this is neither life threatening nor would greater harm or progression of the illness be caused if they did not move. An applicant's daily activities would be made easier if an alternative property was offered.
Zero	One of the following applies: • Applicants current housing situation has no adverse impact on the health issues presented • A move would offer no improvement; <u>or</u> a solution other than moving into a social rented home is available e.g. adaptation of the current home, a move to a private rented home.

Health and Well-being Priority Level	Score
A	4
B	3
C	2
Zero	1

- Calculating Housing-related Support Levels for sheltered housing applicants

Calculating whether an applicant has low, medium or high housing related support needs comes from multiplying the score from the Housing-related Needs for Sheltered Housing with the score for the Health and Well-being assessment

That is:

Housing-related Needs Score x Health and Well-being Assessment Score = Housing-related Support Score
