4) I asked if I could see a doctor about my medical injuries to which did happen.

I got put in a detention cell while I waited for members of the CID Force to put their paperwork together.

I look after myself while I was in the police cell by asking the staff to contact my mother and allow me to speak with her and also that of my solicitor, to which both legal rights of mine got completed without any issues.

I asked for food on two different occasions in my short time in detention, there were also no issues of concern revving food in the police station.

There was no bedding in the cell when I first entered it and I therefore asked for that to get rectified, this got achieved straight after I requested the bedding.

All of my detention in the cell I was on camera in the police cell.

Finally, the custody officer came up to me and told me that he was dropping the case against me, but I could still not leave due to the fact that the Mental Health Doctors wanted to see me.

I asked him am I obliged to speak to them and explained to him that I had not acted with a Mental Illness throughout my detention in the police station in fact I had done the complete opposite and asked for food, drink, blanket, medical care, to speak to a solicitor, to speak to my mother, I managed to sleep for a while also.

The sergeant explained to me that it was not down to the police that the doctors wanted me to speak with myself and I continued by explaining to him that it was also not down to anything that I had done while in custody or beforehand as well.

He pleaded with me to be in compliance to his official public servant's request in so many different words, by asked me to confirm to himself that I will do so, I explained to him that I did not want to speak to any doctors and did not see any reason to warrant such forced treatment but due to him having me detained in a police cell I did not feel like I did have any other choose in the matter.

**Doctors came to cell door: --**

Our conversation came to an end and as he moved his head away from the cell hatch, I noticed a few more people outside of my cell door, when taking a closer look, I can remember that in doing so I noticed quite a few of them from other prior occasions, as if in to mean who they were. The reason I remembered who they were easily is because on the

**25/10/2018**

I never found this out until later in the evening as I had left my mobile phone turned off from the night before hand and also due to my mother having to go to another court case in **Oxford on the same Morning.**

While indoor I received a knock on my front door when I went to see who it was, I heard a reply of it is the doctors we want to speak to you about your mental health, I was quite shocked for the doctors to be at my front door again after all that had happened as of so far between me and them self's.

Because I never knew they were coming I never rushed and tydeid up my flat when first waking up and on stead had started work on my computer.

When speaking to the doctors with my home front door closed at first, I heard a man's voice say hello Simon we are the doctors, and we want to do an assessment on your Mental Health under the Mental Health Act 1983.

I decided not to open my front door at first and to find out more to why they believed they had the rights to do yet again another assessment on me by speaking to them with the door keep shut.

They would not explain much to me and all preferred to walk away.

I waited for them to go out the door and tried to call my mother, but her mobile phone was turned off.

After a few moments I decided to go outside and learn more to why they wanted to use the Mental Health Act against my wellbeing.

4) That I noticed a few of them like Larry, who works for the Enfield Council, that came to my house to do another assessment against me on the Date of: **25/10/2018**, just a few days beforehand and the reason given to me was because of another case of abuse of position and with a bios opinion and unlawful at that, due to another bogus and therefore malicious phone call made by my neighbors about my person.

While putting good reason that an assessment 2 must not get warranted as towards the grounds of the detention not being warranted, the police officer / Sargent allowed for this conversation to continue and opened my cell door and while we were taking.

The Doctors said that they needed a few minutes on their own to discuss with each other what was going on and not to long after he arrived back to my cell door and undone the cell hatch again, but this time told me that I was getting sectioned under the Mental Health Act under an assessment 2.

I explained to them all present that I did not think that this was a fair assessment as I had not even been taken into a room with them or neither had they come into a room with me and that the conversation that we had just had with each other was just merely an introduction.

With this the doctors walked away and closed the hatch on the cell door.

Very soon after a normal ambulance arrive and two female officers who were both polite took me to the hospital named as Chaser Farm Hospital and then after brought me on to the Dorset wing.

Mr. Simon Cordell

**My reasons for my opinions are: --**

Mr. Cordell is known to psychiatric services but has not engaged with them in recent years. Today he was arrested for spitting at a police officer after they were called about him harassing his neighbors.

He has a number of non- molestations orders Against him, forbidding him from contacting them. On examination Mr. Cordell displayed a range of affective and psychiatric symptoms.

He Spoke rapidly and was thought disordered with overinclusive and tangential speech.

He held a number of grandiose and delusional beliefs.

He told us that the police were conspiring with medics and the council to silence him as he had uncovered police corruption.

He said he was targeted by police as they were envied of his abilities.

He told us that his neighbors two floors above were controlling the neighbors below them and caused them to stamp on the floor and disturb Mr. Cordell.

He did not believe that he was Mental unwell and was adamant that he would not see a physiatrist.

**Getting wrongly detained while Working on my report in the;**

Chase Farm Mental Hospital on an Assessment Wing!  
I woke up at around the time of 7:00am due to some staff opening the blinds on the bedroom door window to look inside and see what I was doing.  
I Cleaned the shower in my room even low it did look clean.  
I Made sure my bed was made and the rest of the room that I resided in was clean also.  
There was no Doctor available to Assess me!  
No Staff came up to me to talk about my detention or on ward care plan!

I had a meeting with Simon's mother and uncle. They demanded copies of the detention papers. They were disputing the reasons for detention and more importantly the phrase that Simon is "Grandiose". They were very angry talking over each other and cutting across each other.

Lorraine said Simon has been harassed by his neighbours above him. He has reported many times to the authorities but no one is taking action but when the neighbours report of harassment about 15 police officers come to his flat.

Lorraine said the Court has ordered Enfield Council to move him to a 2-bedroom accommodation where family members can stay with him.

She confirmed that she will appeal against the detention.

She was reminded of the formulation meeting on Monday 29th at 3pm. She indicated her willingness to attend

|  | 1) We accept the clinical evidence as to the nature and degree of the mental disorder.                                                                                                                                                                                                                                                                                                                              |  |
|  | 2) We have no doubt that there is some element of neighbour's dispute;                                                                                                                                                                                                                                                                                                                                              |  |
|  | 3) However, Mr. Cordell's response to such triggers appears to be rooted in a mental disorder which will need to be assessed during this admission.                                                                                                                                                                                                                                                                 |  |
|  | 4) We also accept that the detention is justified in the interests of the patient's                                                                                                                                                                                                                                                                                                                                 |  |

|  | 4.3) Protection of others for the reasons set out above.                                                                                                                                                                                                                                                                                                                                                            |  |

I got petrified, by their decisions. On the<br/> <b>16/08/2016</b><br/> at the police station a single Amp worker visited me, I got detained at the police station for about 28 hours. The time was around 03:30 hours, he took me on his own and said that I was to get moved to St Ann's hospital at around 04:00 hours, when I asked why he replied by saying to me, that he was going by what the two previous doctors reported to him, I explained the true on goings at to him and continued to explain to him that I already have a complaint against the same Doctor prior to this incident and it makes the Doctor Bios and Prejudice towards any case relating to myself and that this should not get allowed to happen, he knew, that I was well of mind, but this got noted by him, with no change in his decision. To get assessed under the mental health act I would have needed to get spoken to by two different doctors present at the same time this must also be in the substance of an interview with an AMP worker</p> | <p>7) On the<br/> <b>**/**/20**</b> it is<br/> said that</p> <p>8) On the<br/> <b>**/**/20**</b> it is<br/> said that</p> |

present “as to mean out of my cell”, this never got done, I never got taken out of the police cell and spoken to by two doctors or even asked if I would speak to the doctors and an AMP worker. The police and doctors at this stage illegally, kept me in detention for over 20 hours in a police cell waiting for my solicitor, so I could have my interview. I never saw my solicitor in all the time I got illegally, held captive, I only spoke to a solicitor once on the phone at my request and this got achieved after 20 hours of being a police station detainee, wrongfully, might I add. I got taken from the police cell at around 3 to 4 am on the 16th August **2016** and taken to St Ann’s hospital, after being held in the police station from the

**14th August 2014**

and still I had not got assessed or seen by Two doctors outside of the cell and an Amp worker together, as required by law. After arriving at St Ann’s Hospital at around 5:30 am the SHO duty doctors see me alone. In me trying to explain to her that I was not a danger to myself or any other person and that the allegations were wrong for threats to kill against myself and that I was being detained for no apparent reason. While waiting for a room in the hospital after being spoken to by the SHO, a gentleman awoke from his room and walked into the communal area to where I was, he plonked himself on the pool table I said hello to him, he seemed overdosed on medication to my concern, he became over abusive in my presents towards the staff and soon after other patients appeared in the communal room awaiting to go in the garden, I soon after getting introduced to my room and dropped off to sleep, I awoke for lunch and dinner and latter toast. Not one, neither two doctors were present. When I got

**transferred**, illegally, too St Ann’s Hospital I spoke to no one other than a single duty SHO with a nurse present. In reference towards my mental stability I have never had to take any medication that got prescribed to myself by my local GP /doctor regarding Mental Health issues as there has been none need, however since I got completely, setup on the

by Carron Dunno I then got forced to take medication. From the first day of my arrival at the hospital while being in the mental health team's care, medication was on a daily, basis, to get forced upon myself to get taken in tablet form by the home Teams Medical Professional. I had to deceive the doctors that I took them for them not to fry my brain with unneeded medication, or they said that I would never go back home again, they tried to force psychotic drugs and Antidepressants into me. After me, waking up from going to sleep in the early hours of the

**16th August 2016**

at St Ann's Hospital I had still not legally, gotten assessed. I woke up at 06:00 pm as I feel to sleep at about 9:00 am and ate my lunch and so forth. Soon after I used the toilet and then damaged my fingers at around 6:30 pm when I asked for medical help, I needed I did not get treated correctly?

When I showed the staff on duty that I needed emergency medical help, I got told to wait for an Hour and soon learnt that 7:30 would be the time of staff change over. I explained what had happened to the next shift around 8:00 pm who then explained to me, I need to wait for from the doctor the next day.

When I got released from hospital, the Laceration had 95% healed and I still have no movement, off my finger to date, so I started to studding about the damage to my left finger I learnt I had cut the function of the extensor digiti minimi, which controls the movement off the little finger. This lack of movement in my finger is because when the muscle moves, it forces the little finger to bend and stretch. Sudden or unexpected movement of the finger or trauma to the finger can easily, damage the muscle as any doctor should understand. I tried my best to keep traction in my finger so to keep the little finger from not moving again but this never helped me. Till date, I have still got no movement, and the Lacerations was 2 cm in width and slowly, healed well, the Laceration had got contained along the proximal phalanges which is the bones that can get found at the bottom of the right-

hand finger, this problem causes me great concern as I am now disabled by it not being treated, and in disappear that I will never regain the use of my little index finger. On the

**16th August 2016**

I also got asked to provide blood for my sugar levels and to take part in my temperature test I explained I got happy, for this to get done and it got completed by the doctor. I got weighed in, so I do not understand why latter the doctors, stated in their reports that I never allowed the tests to get carried out. The doctor asked me to take an ECG test on this date and allowed permission for it to get granted and it went ahead, the latter in the evening I waited outside the locked staff room to speak with staff again about my finger, when I noticed a gentleman who I saw for the first time earlier in the day, he placed himself on top of the pool table. I said hello to him, and he verbally, bit my head off by shouting at me; do I know him and continued to say the following; do not talk to him, he wanted to challenge me in an intimidating manner, so I never reduced myself to his level, I clearly remember that he threatens me. Another inpatient walked over to me and showed me his own ear while this had gone on, in looking at his ear I noticed a vast amount of physical damage that required previous medical treatment, it contained a lot of stitches and was wiping from being so badly, damaged and the weather being hot. The pain, with his ear, hurt, this is what he explained to me, he continued to explain that the gentlemen now arguing with me had been the person who attacked him and further warned me to be very careful of him. I felt, so sorry for him and could clearly see his pain, he continued to explain to me that I must take caution, due to the other men's rings on his hand, as this caused the damage to him, by this time the hospital's staff took a control over the well medicated man and took him away from us all, I then walked back into my room.

When in the meeting the conversation did become slightly high rate from both parties involved.  
The reasons to why I am getting detained I know to be Illegal and wrong  
And are a breach of My Human Rights.  
I getting wrongfully held against my free will and without any fair evidence of any form of a mental Health issue.

#### **CARE COORDINATOR**

- 51.** This is only the second time meeting Simon.

There have been issues with reports he is assaulting other residents in his council accommodation.

### **NURSING REPORT**

**52.** Appears paranoid on the ward.

### **INTERVIEW WITH PATIENT**

**53.** Simon appears very agitated and vocal and is keen to put across his opinion that he has been illegally detained.

**54.** Simon reports issues with police actions in regard to not giving him the ASBO folder properly - this was left outside instead of giving it to him directly. Simon continued to explain other problems with the police's treatment of him. This includes the metropolitan police having placed a photo of Simon in a folder in regard to a party he had no involvement with. He denies being involved in any of the parties mentioned in the ASBO. Simon spoke at length about the injustices surrounding his placement on curfew and the ASBO order.

**55.** He describes how on multiple times doctors have tried to assess him under the MHA and he has explained to them at each time the situation with the police. He was once placed under a section 2 and was able to appeal his section.

**56.** Simon reports the neighbours (**11** floors up) trying to deliberately disturb him by making a lot of noise and flushing the toilet multiple times. He feels they want him to get distressed and go upstairs to address them. They have been doing this over the last 4 years and are doing this throughout the day. From Simons flat you can even hear them talking - there is apparently very poor sound proofing.

**57.** Simon has described a council official as having forged statements and falsely accusing him of threatening his life. Simon reports that he is being assaulted by his neighbours as is his

partner's small child. He feels the stress from this situation may have been linked to his partner's miscarriage. Simon denies any acts of antisocial behaviour, even in retaliation. At every point where he approaches the upstairs neighbours, he states he calls the police to ask them to "protect" him.

**58.** In regard to the recent arrest, he reports the police attended due to a fraudulent call from the neighbours. The police tried to hand him a breach of harassment order which Simon ripped and spat on the paper. The police officer then yelled that he had spat on her. He was then arrested for assault on a police officer. This charge was dropped in the police station, and he was referred for an MHA.

**59.** Simon is currently on benefits. He reports the expensive hardware he owns (e.g. 70000-pound bookmaker) he buys broken and second hand cheaply and fixes them. Simon works from home. He built a new model constitution – a community interest company which was a charity farm.

#### **COLLATERAL INFORMATION:**

**60.** His mother and uncle would like MHS to stop referring to Simon reporting the police as being prejudice against him as delusional - they believe this can be proved (showing photos of his company truck and hardware).

**61.** Simon's mother is very upset that doctors have submitted reports stating that he is delusional and grandiose. They feel the AMHP report is grossly inaccurate.

**62.** Simon's uncle is also upset that the MH team would not provide Simon with a letter to assist with his housing situation.

**63.** They explain that the reason Simon has not be prosecuted for the complaints made by the neighbours is because each time Simon is able to "prove his innocence" directly to the police.

**64.** Simon's mother believes he is very stressed due to the conditions of the ASBO and his

CORDELL, Simon P (Mr)

Present: Dr Greensides (consultant), Dr Elia (ST6) Dr Bruce (FY2) MHA: Section 2

Interview with Patient

Simon confirms his problems began in **2013**. He moved into his premises in **2013** - there was evidence of CO poisoning in the flat and all the boiler systems and alarms had to be replaced.

Simon has been held on curfew for a long time for organising a party and? wrongly accused of damaging the premises. Also was accused of burglary and handling of stolen goods - he was found innocent on both accounts.

Simon reports having had a "relationship" with his current partner Katy for the last ?20 years. She has a son from a previous relationship.

The problems with the neighbours have been going on for 4 years now. Simon is concerned about his neighbours, in particular to how their behaviour might affect their child. 6 flats in total in his council building - the neighbours that are problematic are 2 floors above Simons. These particular neighbours bang on the water pipes, stamps on the floor (these echoes through the flat between) - this happens first thing in the morning and goes on through the day.

Simon believes his neighbours sit in their flat eavesdropping on Simon's whereabouts. When he enters the bathroom, they enter their bathroom and flush the toilet a lot. Simon has Video and Audio recordings throughout his flat in order to prove his innocence. There is a husband and wife living there as well as a new born baby. Simon reports he can hear this family talking but he can't make out what they are saying - he denies them saying anything negative about him "they've never spoke to me".

Simon has personal information about his neighbour which he feels is proof of? tax evasion - he reports the family own 50 houses in the UK. The neighbour has changed their surname in order to accommodate some scheme to avoid? tax - Simon reports he has "100% evidence" that this is true and feels it is relevant to him because of how they are treating him. Simon believes what the neighbours are doing is a hate crime.

|  | <p>Simon denies ever having felt like the TV was talking to him or that the council was advertising his information. Simon does feel his personal information is being advertised somehow - friends have approached him and have information about him he believes can only have come from secure computer systems.</p> <p>Simon is not concerned about his tenancy at the moment - he states he has recordings that prove his innocence. **66. On 24th February 2017** Sarah Fletcher (Neighbourhood Officer) and Steve Stirk (Maintenance Surveyor) attended your property at flat 109 Burncroft Avenue to inspect the property following reports of low water pressure from flats 113 and 117 Burncroft Avenue. While inside your flat, they observed that you have installed an iron security gate inside your front door. It also appeared to them that the wall between your kitchen and living room seemed to have been removed thereby creating an open plan effect. Much of the property was taken up industrial type printers, boxes and folders and there were dog faeces in your back garden.

**67. On 17th March 2017** Lemmy Nwabuisi, ASB Coordinator visited 109 Burncroft Avenue to post a letter through your door and as he got into his car to drive off after posting the letter, you ran after him shouting and screaming abuse. The letter requested that you attend our offices to discuss the nuisance reports being received from your neighbours. By the time he returned to the office, you had telephoned him several times. He telephoned you back and you asked whether he was the person that posted a letter through your letterbox and he said yes. You asked why he did not stop when you ran after him and he stated that he had another visit and did not have the time to stop and talk to you. You stated that you will not attend the meeting at the Civic Centre or any of the council offices as you are unable to leave your flat and that the meeting should take place in your flat. Mr Nwabuisi offered to have the meeting at a neutral venue and suggested the local library or at your mother's house but you refused saying that you have done nothing wrong and accused him of taking sides with your neighbours.

**68. On 5th May 2017,** it is alleged that you threatened one of your neighbours by saying that you will ruin his life and that you were going to the police to present evidence about his illegal activities.

On 24th September 2018** at about 11.30am, one of your neighbours returned home from dropping her daughter at school and as she entered their block of flat, she noticed that the middle door on the ground floor was open as well as your front door. As she went up the stairs to their second floor flat, your dog came out of your flat and started barking at her. The neighbour had to run up the stairs to her flat to escape from the dog. It was reported that your dog is always barking whenever they go out or return to the block and the neighbour and 4 years old daughter are terrified.

**96.** One of your neighbours reported that his cousin was leaving the block at about on **2nd October 2018** at 12.45pm, and as you exited the block, you followed him and suddenly grabbed his jacket from behind and tried to pull him to the ground. The cousin started shouting to attract neighbours and managed to push you off.

**97.** There are other reports from one of your neighbours who reported that on **30th September 2018**, you attempted to break down his front door by kicking it several times only because he flashed his toilet.

**98.** It is reported that you continue to harass and intimidate other residents on a regular basis.

**99. On the 25th of October he was arrested** for breaching the injection order and spitting at the police officer on arrest.

#### **Treatment and progress on the ward**

**100.** On admission to Dorset ward, Mr Cordell presented elated, mildly irritable and thought disordered. On arrival to the room, he remained calm and polite. He started the conversation by asking for duty doctor's name, which he wrote down on a paper. He then stated he has been detained here illegally because they think he is grandiose. He then went onto give the duty doctor a timeline of events which were largely related to the police and his connection with mental health services. In summary, he holds paranoid ideas that the police have charged him 'in illegal ways'

for an ASBO for 'organisation of illegal raves. This has led to several on-going issues with the police who have involved mental health services, and it is a conspiracy against him.

**101.** He states he wasn't assessed properly by doctors today **(25/10/18)** and that the doctors who saw him today **(25/10/18)** have previously tried to section him and 'failed' because he has 'video recordings' to prove he is innocent. He referred to multiple acts and dates which apparently are being broken by keeping him here.

**102.** He states he has several businesses that the police have tried to stop, including 'owning festivals' and his website called 'horrific corruption' and associated newsroom which he uses to expose police and doctors who are working in illegal ways. He states he has 'been wronged 78 times by the police' and will 'expose all of the doctors and police' involved.

**103.** He spoke about being a 'privileged member of the community' and has never tried to hurt anyone. He reports the police have framed him in a 'sex scandal' and caused multiple issues. He described a negative relationship with neighbours and states that they bang from above continuously. He states a previous partner was pregnant and the neighbours banging led to the

**60**

- baby being lost.

**104.** He denies having a mental health illness and states he will get out of here once he has his laptop containing video graphic proof and was requesting a tribunal. During the course of the conversation, he refused to acknowledge he has been sectioned and was adamant he would be able to leave but was not forceful or physically attempting to leave.

**105.** When he was seen by ward doctor on the **26th of October** Mr Cordell feels he is in hospital because

the police have “falsified” a report that led to him being kept on a curfew for years.

**106.** He proceeded to talk at length about circumstance that led him to be charged for handling of stolen goods and suspicion of burglary in **2013**. He believes the case was handled poorly and is sure the police were conspiring against him. “The abuse of process by the civil service was unreasonable”.

**107.** Following this he reports being placed on a 2-year injunction and a 5-year curfew. He feels this has led to a breakdown in a 13-year relationship he had. He also reports this affecting his company -a community interest company he started up. At one-point Mr Cordell also mentioned the police targeting him for holding large parties that he was adamant were not hosted by him.

**108.** Mr Cordell reports owning a couple of local festivals and talks about engaging with multiple charities helping children. He says he had to stop this as police were harassing him in front of the children. He alleges to own his own company, his own paper and has just bought his own book maker for 70000 pounds. He also reports having 180000 friends on Facebook due to all his free parties.

**109.** When asked about his neighbours Mr Cordell said he believes his neighbours have been making up complaints about him. “My neighbours are calling up the police after forging the paperwork.” He feels that his neighbours have been attacking him and reports feeling anxious in his house. Simon says he “kept writing to the police saying please can you protect me”.

**110.** He does not think he is unwell and does not think he has a mental health problem. He admits he might be elevated but he believes this is a constructive state.

**111.** Mr Cordell reports not being compliant with any of his medication at any point. He is refusing to take any medication during this admission. “I’ve spent thousands of pounds showing you my brain, me being alert saves lives.”

**112.** Mr Cordell would like to appeal his section and feels that by keeping him in hospital we are breaching his rights. "Physical or mental suffering amount to torture"

**113.** He reports sleeping, eating and drinking well. Later he suggested this may not be the case stating, "In the nighttime when my neighbours are asleep that's the best time for working".

**114.** Impression was that he presented with paranoid and grandiose delusions with significant mood component. In view of long-term symptoms this is most likely consistent with a schizoaffective disorder. He does not currently have capacity for treatment or admission.

**115.** He settled in over the weekend, personal hygiene remained poor, smell of cannabis on him was noticed.

**116.** On the **29th of October 2018** when he was seen by a nurse, he was irritable and quite hostile. He was

- on the phone to his relative, complaining about police and claimed to be falsely accused.

**117.** On the 29th of October Formulation meeting was held:

**CARE COORDINATOR 'S FEEDBACK**

**118.** This is only the second time meeting Simon. There have been issues with reports he is assaulting other residents in his council accommodation.

**NURSING REPORT**

**119.** He appears paranoid on the ward.

- 139.** Mr Cordell 's mother is very upset that doctors have submitted reports stating that he is delusional and grandiose.

**155.** Mr Cordell believes his neighbours sit in their flat eavesdropping on Mr Cordell's whereabouts. When he enters the bathroom, they enter their bathroom and flush the toilet a lot. He is also at high risk from being evicted from his current accommodation which could put his mental and physical health at significant risk. His safety is compromised by possible retaliation from others when he is behaving aggressively towards other people. As well as the safety of others as he was aggressive to his neighbours, council employees and police prior to admission.</li> <li>4. |  | <p>I spoke to my mother on the telephone at around the time of 8:00pm</p> <p>When speaking to her she started to explained to me what had happened to her earlier in the day time. What she told me next left me even more in shock than I had been by what was already getting done to me illegally.</p> <p>She said that doctor greenside had made a phone call to her about me</p> <p>What she explained to me was in short because she was not too happy with my decisions</p> <p>What was said is that a Doctor Green side who is the Main Clinician for the Mental Health team North London and manages the Dorset wing at Chase Farm hospital had called her mobile phone.</p> <p>Part of the reason is that he is in Charge Mainly in charge alongside with other in looking after the patents who are under assessment or on a volunteer's basics while getting detained.</p> <p>What happens to a person or a least what should happen to a person who is going to get detained under the Mental Health Act 1983 In the United Kingdom can very but in whole the same procedures / Standards and regulations mainly form from these listed same acts of Law.</p> <p>There is a Bad leak running all across the main floor in the communal room coming from the water machine.</p> <p>Broken TV</p> <p><b>(27) 02/11/2018,</b></p> <p><u>The Doctor's Folder / pub Book Issue: 1!</u></p> <p><u>Stage 4</u></p> <p><u>Folder 4</u></p> <p>Originator Details: 02 Nov 2018</p> <p>Last Amended by Details: 04 Dec 2018</p> <p>Maria Bruce</p> <p>Page Numbers: 23 + 24</p> <p><b>23</b></p> <p><b>Originator Details:</b> 02 Nov 2018 10:00</p> <p>Maria Bruce Medical</p> <p><b>Originally Entered by Details:</b> 05 Nov 2018 11: 17</p> <p><b>Maria Bruce Last Amended by Details:</b> 04 Dec 2018 16: 04</p> | <p><b>27)</b> On the <b>**/**/20**</b> it is said that</p> |

inaccurate to the assessment documentation of its statement of facts.

We went through what I had gotten accused of when first getting detained to hospital, which is: --

**1.** Mr. Cordell is known to psychiatric services but has not engaged with them in recent years.

**Reply: --**

This information is undermining towards the defamation of the definition of my character and influences a person beliefs into believing that I have gotten treated under the Mental Health Act 1983 as a person who has been diagnosed with a mental illness, to which I have not and to further my issues of raised concern it continues to state that I have not then on after accepted treatment as it states that I have not engaged with the Mental health Service in the following years to pass. This information is also not an 100% accurate fact towards the statement of the maker. As I have personal Telephoned Lucas house and also that of the Silver Street Mental Health Assessment Team arranged a meeting that did take place at my home address to which I took the Minutes of them meetings in a digital format to which I still claim the legal rights of and as a conclusion of them meetings I got diagnosed of well sanity.

**2.** Today he was arrested for spitting at a police officer after they were called about him harassing his neighbors.

**Reply: --**

**3.** He has a number of non- molestation orders against him, forbidding him from contacting them.

**Reply: --**

**4.** On examination Mr. Cordell displayed a range of affective and psychiatric symptoms.

**Reply: --**

**5.** He Spoke rapidly and was thought disordered with overinclusive and tangential speech.

**Reply: --**

6. He held a number of grandiose and delusional beliefs.

**Reply: --**

7. He told us that the police were conspiring with medics and the council to silence him as he had uncovered police corruption.

**Reply: --**

8. He said he was targeted by police as they were envious of his abilities.

**Reply: --**

9. He told us that his neighbors two floors above were controlling the neighbors below them and caused them to stamp on the floor and disturb Mr. Cordell.

**Reply: --**

10. He did not believe that he was Mental unwell and was adamant that he would not see a psychiatrist.

**Reply: --**

11. He lacked insight into his presentation.

**Reply: --**

12. He was irritable and has assaulted police officers and harassed his neighbors in recent days.

**Reply: --**

13. He poses a risk to others; therefore, his behavior poses him a risk of retaliatory Symptoms. This places his Health and safety at risk.

**Reply: --**

14. There is evidence that he has a Mental illness of a nature and degree treatment in hospital and without this there is a risk of harm to his health and safety and the safety of others.

Dear Ms Ryan,

**Mr Simon Cordell, 109 Burncroft Avenue, EN3 7JQ**

Thank you for your recent enquiry, which I forwarded to my officers in the Community Safety Unit Anti-Social Behaviour team.

I can confirm that the Anti-Social Behaviour Team is aware of the ongoing issues between Mr Cordell and his neighbours. Your enquiry has been added to the Anti-Social Behaviour database (Case Reference 17834) and passed to Anti-Social Behaviour Coordinator Lemmy Nwabuisi to investigate.

I have liaised with Mr Nwabuisi and have been advised that the council was granted an interim injunction with a power of arrest on **9th January 2018** because of reports of anti-social behaviour and harassment made against Mr Cordell by some of his neighbours. The injunction was discharged at a hearing at Edmonton County Court on **9th August 2018** following a mental health assessment report that concluded that Mr Cordell did not have the mental capacity to litigate or understand the terms of the injunction.

Mr Nwabuisi has also advised that there is no court decision whereby the Judge stated that Mr Cordell is entitled to a 2-bedroom property so that his career, his mother, has a spare room to sleep in. He advised that Mrs Cordell informed the Judge at the hearing that her son requires a 2-bedroom property and the Judge asked the council to consider her request, however the Judge did not make an order that Mr Cordell should be offered a 2-bedroom property. Mr

Chase Farm Mental Hospital on an Assessment Wing!

I woke up at around the time of 7:00am due to some staff opening the blinds on the bedroom door window to look inside and see what I was doing.

I Cleaned the shower in my room even low it did look clean.

I Made sure my bed was made and the rest of the room that I resided in was clean also.

There was no Doctor available to Assess me!

No Staff came up to me to talk about my detention or on ward care plan!

|  | <p>walked up the corridor and went into the medication room where Bibi was.</p> <p>I soon afterwards noticed her presence in the room once again but this time she had medication with her.</p> <p>I studied her as she walked up to the patient beside me with caution., due to my earlier conversation with Doctor Greenside and with rightfully cause as she had what seemed like more medication in her hands ready to administer to other people.</p> <p>The next thing I knew she was saying to me with a smile on her face Simon take your medication, I looked at her in disbelief and replied to her that I had explained to Doctor Greenside that I did not wish to take medication under his professional belief alone and that while under a section two of the mental health act I did not need to take the medication by law.</p> <p>She stormed off and told me that she is going to document down that I would not take the medication of her.</p> <p>I watched her walk back off to the medication room I decided to go and complain about my concerns and when I also arrived at the medication room, I could see Bibi and Daisy talking to each other and the tablets still in the pot that Daisy was still carrying.</p> <p>Being worried about my medical care I asked the following questions to the two staff present.</p> <p>1) I never got given any Pleaf / form explaining to me what the medication was neither did any staff talk to me about what medication I was to be take.</p> <p>2) No Staff had asked me if I had ever taken this medication before and if so, what reverse effects it may have had.</p> <p>3) No staff talked to me about my health which to me is a fettle part of administering prescribed medication to another person and this being due to my bad heart pains that I keep complaining about since I got to the Dorset Wing and beforehand in letters to the Enfield Council asking them to protect me from what the other tenants were doing to me in regard to banging and stamping above my head, Including the stress from proving my innocents against the first Asbo and it appeal stage + Judicial</p> |  |

**3) On the

**PC:** Patient was arrested due to complaints received regarding harassment of neighbours. He was taken to Wood green police station, found to have a manic presentation with grandiose delusional ideas and was detained under MHA.

Background: Patient previously given diagnosis of unspecified non-organic psychosis. He has a long-standing MH background and has been under both CAMHS and adult services in the past. Over the past few years, he has engaged poorly with services and is not currently on any medications. More recently he has been reviewed by EIS/Enfield north locality team. Simon was seen in the quiet room with nursing staff present.

Prior to entering the room, Simon started to ask a lot of questions and asked the nurses for a pen for 'the meeting'. When nursing staff stated that he should wait till we get to the room to ask questions he responded 'she is in a male role so it's only fair that I speak to her in the same way'.

On arrival to the room he remained calm and polite. He started the conversation by asking for my name, which he wrote down on a paper. He then stated he has been detained here illegally because they think he is grandiose. He then went onto give me a timeline of events which were largely related to the police and his connection with mental health services. In summary he holds paranoid ideas that the police have charged him 'in illegal ways' for an ASBO for organisation of illegal raves. This has led to several on-going issues with the police who have involved mental health services and it is a conspiracy against him.

He states he wasn't assessed properly by doctors today and that the doctors who saw him today have previously tried to section him and 'failed' because he has 'video recordings' to prove he is innocent. He referred to multiple acts and dates which apparently are being broken by keeping him here.

He states he has several businesses that the police have tried to stop, including 'owning festivals' and a newspaper called 'horrific corruption' and associated newsroom which he uses to expose police and doctors who are working in illegal ways. He states he

has 'been wronged 78 times by the police' and will 'expose all of the doctors and police' involved. He spoke about being a 'privileged member of the community' and has never tried to hurt anyone. He reports the police have framed him in a 'sex scandal' and caused multiple issues. He described a negative relationship with neighbours and states that they bang from above continuously. He states a previous partner was pregnant and the neighbours banging led to the baby being lost.

He denies having a MH illness and states he will get out of here once he has his laptop containing video graphic proof and was requesting a tribunal. During the course of the conversation he refused to acknowledge he has been sectioned and was adamant he would be able to leave but was not forceful or physically attempting to leave.

**Getting wrongly detained while Working on my report in the.**

Chase Farm Mental Hospital on an Assessment Wing!

Monday Morning, I awoke to the now normal daily routine and soon after spoke to a kind gentleman who is a part of the estate management team, he oversees my problem of cause and retried it with ease E.G “broken bathroom window due to not being able to shut correctly”

What doctor green explained to me; next I think I took very well. He explained to me that he wanted to put me onto a section three of the Mental Health Act 1983.

How it happened!

Just before lunch time Doctor Greenside came to my room and asked me for a meeting with me. I agreed to what he had asked and walked with him into another room, when sitting down together we were both left quietly alone and then Doctor Greenside started to explain to me that he wanted to place me of the section 2 of the Mental Health Act 1983 and on to A section 3 of that act.

I took my time and asked him why he believed this was warranted as to the initial reasons to why I had been placed on a section two had been proven to be inaccurate to the assessment documentation of its statement of facts.

We went through what I had gotten accused of when first getting detained to hospital, which is: --

**1.** Mr. Cordell is known to psychiatric services but has not engaged with them in recent years.

**Reply: --**

This information is undermining towards the defamation of the definition of my character and influences a person beliefs into believing that I have gotten treated under the Mental Health Act 1983 as a person who has been diagnosed with a mental illness, to which I have not and to further my issues of raised concern it continues to state that I have not then on after accepted treatment as it states that I have not engaged with the Mental health Service in the following years to pass. This information is also not an 100% accurate fact towards the statement of

the maker. As I have personal Telephoned Lucas house and also that of the Silver Street Mental Health Assessment Team arranged a meeting that did take place at my home address to which I took the Minutes of them meetings in a digital format to which I still claim the legal rights of and as a conclusion of them meetings I got diagnosed of well sanity.

**2.** Today he was arrested for spitting at a police officer after they were called about him harassing his neighbors.

**Reply: --**

**3.** He has a number of non- molestation orders against him, forbidding him from contacting them.

**Reply: --**

**4.** On examination Mr. Cordell displayed a range of affective and psychiatric symptoms.

**Reply: --**

**5.** He Spoke rapidly and was thought disordered with overinclusive and tangential speech.

**Reply: --**

**6.** He held a number of grandiose and delusional beliefs.

**Reply: --**

**7.** He told us that the police were conspiring with medics and the council to silence him as he had uncovered police corruption.

**Reply: --**

**8.** He said he was targeted by police as they were envies of his abilities.

**Reply: --**

**9.** He told us that his neighbors two floors above were controlling the neighbors below them and caused them to stamp on the floor and disturb Mr. Cordell.

**Reply: --**

**10.** He did not believe that he was Mental unwell and was adamant that he would not see a psychiatrist.

**Reply: --**

**11.** He lacked insight into his presentation.

**Reply: --**

**12.** He was irritable and has assaulted police officers and harassed his neighbors in recent days.

**Reply: --**

**13.** He poses a risk to others; therefore, his behavior poses him a risk of retaliatory Symptoms. This places his Health and safety at risk.

**Reply: --**

**14.** There is evidence that he has a Mental illness of a nature and degree treatment in hospital and without this there is a risk of harm to his health and safety and the safety of others.

**Reply: --**

**Sarah Hewitt**

**reasons are: --**

This man is hyper mental with flights of speech and ideation.

He has delusions that the police are targeting him are other residents in his block of flats.

He says people in the street are spitting at him because they believe he gave a woman herpes.

He is quite grandiose in his ideas about helping the world.

While with Doctor Greenside he persisted to prosiest thought or conversation that he believed that I was suffering with a Mental Health Disorder such as psychosis.

I continued to stay adamant that I am of good health and that I do not suffer from any of the symptoms that a person would suffer from if they did have Psychosis and my family and loved ones also agree with myself.

He told me that he wanted to put me onto medication again I told him that this was unfair and would be a breach of the Mental Health process as

|  | <p>he had no evidence that warrants my detention or any form of a Mental Health disorder.</p> <p>I asked doctor greenside if he does believe that I had a mental health illness such as psychosis why would he give me un escorted leave of the Dorset Hospital wing two days into my detention, he never had a fair response to my simple question I also reminded him that I had not failed in that obligation of trust.</p> <p>The next reply I said to the doctor greenside was that he is abusing his position as a clinical practitioner and that he had no legal right after I had proved that the reason for my detention was flawed within the assessment 2 and therefore incorrect information and also that of misleading information.</p> <p>Doctor Greenside asked me if I had been smoking any weed, I asked him why he would ask me this and he explained that he thought that he could smell weed from inside my room when he came to it early to take me out for our meeting. I gave him the reply of no I have not been smoking weed in my room and that I was happy to do a urine sample.</p> <p>I explained to him that I had just left the wing on unescorted leave and could also smell somebody outside smoking it.</p> <p>While talking I explained that I had applied for my tribunal and wished for an absolute discharge of any Mental Health illness and understood that this would be the correct professional opinion.</p> <p>At the end of our conversation, I reminded him of a part of or past short conversation, when doing so I explained that he had said to me himself that he did not believe that I was a danger to myself or towards any other person and that is why he had granted me unescorted leave of the Hospital wing that is named as Dorset</p> <p>Doctor Greenside finished or meeting by explain that he believed in the proof of what I had shown him to be correct as to the assessment 2 sheets wrote context being incorrect and told myself that he believed that since <b>2014</b> these problems that I had been questioned about by he had now caused me to suffer with Psychosis. I knew this not to be true.</p> <p>Our meeting came to an end and I went back to my room on the hospital wing.</p> |  |

|  | <p><b>From Client:</b> Not Concealed</p> <p><b><u>19</u></b></p> <p>OT: Self<br/>pampering<br/>11-12noon</p> <p>Simon came into the room and spoke about how unfair it was that he was in hospital. He spoke about the police conspiring against him. Simon said the police were very careful in how they handled him. Simon said the police could not prove/find him guilty of anything. Simon said he did not have a psychosis but as he was suing the police, they would not put him in prison but made up the charge that he was psychotic. He said he was not grandiose and he did own and run a business. He said he was not bankrupt and despite receipts provided by his mother did not over spend. He mentioned that someone had accused him of something he'd done in his flat but it hadn't been true never the less the police had still brought him to hospital. He feels everything done to him is against his 'human rights. Technician did try to point out /reason with him but he only reason things out according to his beliefs.</p> <p><b><u>1)</u></b> 29 Oct 2018 12:45<br/> <b><u>2)</u></b> 30 Oct 2018 15:09<br/> <b><u>3)</u></b> 30 Oct 2018 13:15<br/> <b><u>4)</u></b> 05 Nov 2018 13:12</p> <p><b>Done</b></p> |  |

21:49: I was inside of the communal hall eating some toast at toast time and drinking some hot chocolate While sitting down I could see into the staff office as it has a clear glass window, and I could see Bibi my care coordinator she left the office and went up to the medication room.

“While this was going on I watch Nurse Daisy come into the same room, I had noticed that she had been funny with me since I got here in so many words that she never took a liking to me, what she said was how are you feeling today to me in front of every one in a sarcastic voice I replied to her comment by saying the following How do you think I am feeling today?” She looked at me funny and gave no reply as she done, she started to walk out of the room. She walked up the corridor and went into the medication room were Bibi was.

I soon afterwards noticed her presence in the room once again but this time she had medication with her.

I studied her as she walked up to the patient beside me with caution., due to my earlier conversation with Doctor Greenside and with rightfully cause as she had what seemed like more medication in her hands ready to administer to other people.

The next thing I knew she was saying to me with a smile on her face Simon take your medication, I looked at her in disbelief and replied to her that I had explained to Doctor Greenside that I did not wish to take medication under his professional belief alone and that while under a section two of the mental health act I did not ned to take the medication by law.

She stormed of and told me that she is going to document down that I would not take the medication of her.

I watched her walk back of to the medication room I decided to go and complain about my concerns and when I also arrived at the medication room, I could see Bibi and Daisy talking to each other and the tablets still in the pot that Daisy was still carrying. Being worried about my medical care I asked the following questions to the two staff present.

She said she is not happy that Simon was discharged from hospital. I said that I did not see any value for the ward to keep him as he is adamant that he does not have a mental illness and he has constantly declined medications. She said that Simon wanted to build up a relationship with the ward? She also mentioned that I have said that I will help Simon with housing issues; I clarified that I at no point have I said this but what I said that if Simon agrees to engage with CC in the community, I am more than happy to talk/listen to him. I reiterated that his housing issues does not fall under the remit of the Community Mental Health Team and that he/should liaise with the Enfield Council directly and/or challenge the eviction via the courts. She said that she plans to liaise with the Court. I said that I am happy to arrange a review with his Psychiatrist if that what he wants; she said that she will discuss this with Simon and call be next week.</p> | <p><b>4)</b> On the <b>**/**/20**</b> it is said that</p> |

Admission meeting

CORDELL, Simon P (Mr)

Present: Dr Greensides (consultant), Dr Elia (ST6) Dr Bruce (FY2) MHA: Section 2

Interview with Patient

Simon confirms his problems began in **2013**. He moved into his premises in **2013** - there was evidence of CO poisoning in the flat and all the boiler systems and alarms had to be replaced.

Simon has been held on curfew for a long time for organising a party and? wrongly accused of damaging the premises. Also was accused of burglary and handling of stolen goods - he was found innocent on both accounts.

Simon reports having had a "relationship" with his current partner Katy for the last ?20 years. She has a son from a previous relationship.

The problems with the neighbours have been going on for 4 years now. Simon is concerned about his neighbours, in particular to how their behaviour might affect their child. 6 flats in total in his council building - the neighbours that are problematic are 2 floors above Simons. These particular neighbours bang on the water pipes, stamps on the floor (these echoes through the flat between) - this happens first thing in the morning and goes on through the day.

Simon believes his neighbours sit in their flat eavesdropping on Simon's whereabouts. When he enters the bathroom, they enter their bathroom and flush the toilet a lot. Simon has Video and Audio recordings throughout his flat in order to prove his innocence. There is a husband and wife living there as well as a new born baby. Simon reports he can hear this family talking but he can't make out what they are saying - he denies them saying anything negative about him "they've never spoke to me".

**Mental Health Tribunal Report**

**Date:01/11/18 Patient details**

Mr Simon Cordell (11214451)

Date of birth: 26 Jan 1981

Address: 109 Burncroft Avenue, Enfield Post Code: EN3 7JQ

**CIRCUMSTANCES OF ADMISSION AND  
BACKGROUND**

1. Mr Cordell is a 37-year-old man with previous diagnosis of F29X - Unspecified nonorganic psychosis. He has been known to CAMHS service in the past and to Adult Mental Health Services since **2014**. However, he has not been engaging with the services in recent years despite numerous attempts from mental health teams.
2. Mr Cordell become significantly unwell in mental health in **2014**. He deteriorated significantly in mental state but he refused engage with mental health service and declined to take medication. Consequently, he had to be detained under Section 2 of MHA in **2016**. He was treated with medication (Olanzapine) during the admission but soon after discharge he stopped taking his medication. He continued to be seen by Early Intervention service following a discharge, but he continued to refuse any treatment for his condition. This led to further deterioration in mental health. When Mr Cordell is unwell, he presents with persecutory delusions about his neighbours, council staff and the police. As a result of paranoid beliefs, he becomes more aggressive and threatening especially towards neighbours. From **2016 to January 2018** there were numerous complaints from neighbours reported about Nr Cordell's acts of harassment

and antisocial behaviour. This led to an interim injunction order (harassment order) to be issued against Mr Cordell, at the Edmonton County Court, in **January 2018**. Mr Cordell breached the order on multiple occasions. It has been reported that his neighbours have been assaulted, harassed and have received threats from Mr Cordell. In addition, Mr Cordell disengaged with EIS.

3. In **April 2018** further deterioration in mental health was observed when he contacted the police and complained about the neighbours making noise. EIS team was contacted, and they offered to review Mr Cordell but he refused to work with them again.
4. On the 1st of June he was arrested for harassing his neighbours and breaching the injunction order against him. He threatened his neighbour who was at the time with her two children that he

- will kill her and her children " You fucking bitch, I have a bomb for you, I will get in your block, kill you and your children At that point, EIS stated that he has gone beyond EIS three year treatment period and therefore they referred his case to Enfield North Locality Team in **June 2018**. During the period of next few months (from **June 2018 until October 2018** - they were reported numerous accounts of harassment and assaults to his council on his neighbour) Mr Cordell has continued to harass his neighbours and has refused to engage with mental health services. Few neighbours already moved out from their flats due to Mr Cordell's aggressive behaviour and Enfield Council decided to seek possession of Mr Cordell's flat via the courts. In a recent court case, the judge recommended that Enfield Council re-house Mr Cordell on the proviso that he engages with the MH Team. However, he failed to do that.

|  | <p><b>5. In October 2018</b>, Mr Cordell was physically aggressive towards another service user who lives in the same building as him. Mr Cordell took him by the throat and left him feeling unable to walk around on the floor or even flush his toilet chain for fear of sparking another altercation (with no basis) about excessive noise.</p> <p><b>6.</b> This triggered a safeguarding process and Enfield Adult North Locality Team decided to organise MHA assessment as Mr Cordell refused to engage with them.</p> <p><b>7.</b> Consequently, he was referred for MHA assessment on the <b>17th of October 2018</b>. Enfield Adult North Locality Team agreed that he is at risk to others and his behaviour could also put him at risk from others. Application for 135(1) was made however a judge found insufficient evidence presented for a warrant. He was referred to a forensic sector following this event.</p> <p><b>8.</b> On the <b>25th of October</b> he was arrested as the police were called to his flat regarding him breaking a harassment order and that day, he allegedly assaulted the police who attended by spitting. Consequently, he was taken to Wood Green police station. He was found to be thought disordered with grandiose and persecutory delusions, hypomanic with flight of ideas and pressured speech. Therefore, MHA assessment was organised. He was detained under section 2 of MHA and admitted to Dorset ward, Chase Farm Hospital on the <b>25th of October 2018</b>.</p> <p><b>9.</b> Mr Cordell explained that the police were conspiring with medics and the council to silence him as he had uncovered police corruption. He also said his neighbours two floors above were controlling the neighbour below them and caused them to stamp on the floor and disturb him. It was reported that he appeared to lack insight into his presentation as he did not believe he was mentally unwell and was adamant to see a psychiatrist for treatment.</p> <p><b><u>MENTAL STATE EXAMINATION ON ADMISSION</u></b></p> |  |

**64.** We received a report that on **7th February 2017** you approached the leaseholder of 117 Burncroft Avenue and his plumber outside the block as they were attempting to resolve the problem causing low water pressure in the flat. You said to the leaseholder that there were problems between you and his tenants but did not give any specific details. The leaseholder explained to you that his tenants were experiencing low water pressure in the flat and you said to him 'you will not solve the problem as I am restricting their water supply'. The leaseholder later

**65.** knocked on your door and asked whether you would increase the water pressure and you stated 'I cannot do anything at the moment, I will sort it out later'.

**66.** On **24th February 2017** Sarah Fletcher (Neighbourhood Officer) and Steve Stirk (Maintenance Surveyor) attended your property at flat 109 Burncroft Avenue to inspect the property following reports of low water pressure from flats 113 and 117 Burncroft Avenue. While inside your flat, they observed that you have installed an iron security gate inside your front door. It also appeared to them that the wall between your kitchen and living room seemed to have been removed thereby creating an open plan effect. Much of the property was taken up industrial type printers, boxes and folders and there were dog faeces in your back garden.

**67.** On **17th March 2017** Lemmy Nwabuisi, ASB Coordinator visited 109 Burncroft Avenue to post a letter through your door and as he got into his car to drive off after posting the letter, you ran after

him shouting and screaming abuse. The letter requested that you attend our offices to discuss the nuisance reports being received from your neighbours. By the time he returned to the office, you had telephoned him several times. He telephoned you back and you asked whether he was the person that posted a letter through your letterbox and he said yes. You asked why he did not stop when you ran after him and he stated that he had another visit and did not have the time to stop and talk to you. You stated that you will not attend the meeting at the Civic Centre or any of the council offices as you are unable to leave your flat and that the meeting should take place in your flat. Mr Nwabuisi offered to have the meeting at a neutral venue and suggested the local library or at your mother's house but you refused saying that you have done nothing wrong and accused him of taking sides with your neighbours.

**68. On 5th May 2017,** it is alleged that you threatened one of your neighbours by saying that you will ruin his life and that you were going to the police to present evidence about his illegal activities.

**69. On 14th May 2017,** it is alleged that you aggressively banged on one of your neighbour's door, shouted abuse and threats at her and falsely accused her of making noise and coming into your flat to attack you. You later followed her to her car shouting abuse and wanting to know where she was going.

**70. On 14th May 2017** it is alleged that you allowed your dog to run freely in the communal area of your block without a lead.

**71. On 28th May 2017, the** police issued you with a first instance Harassment letter following reports of harassment and threatening behaviour made to the police by one of your neighbours.

**72. On 9th June 2017,** it is alleged that you attacked one of your neighbours in the communal hallway of your block as he returned from work late at night by grabbing him on the arm and neck thereby causing bruising to his arm and neck. You also stated that you knew where he lives in Enfield and that he and his family were not safe from you. You also told him that you would watch him leave the office and you would

have followed him home and he needed to watch his back. You called the ASB officer again 30 minutes later and told him that you knew he has a flat in Edmonton and also knew that one of his colleagues' lives in Edmonton. You also stated that you knew where they live, and they were not safe.

On arrival to the room, he remained calm and polite. He started the conversation by asking for duty doctor's name, which he wrote down on a paper. He then stated he has been detained here illegally because they think he is grandiose. He then went onto give the duty doctor a timeline of events which were largely related to the police and his connection with mental health services. In summary, he holds paranoid ideas that the police have charged him 'in illegal ways' for an ASBO for 'organisation of illegal raves. This has led to several on-going issues with the police who have involved mental health services, and it is a conspiracy against him.</p> <p><b>101.</b> He states he wasn't assessed properly by doctors today (<b>25/10/18</b>) and that the doctors who saw him today (<b>25/10/18</b>) have previously tried to section him and 'failed' because he has 'video recordings' to prove he is innocent. **104.** He denies having a mental health illness and states he will get out of here once he has his laptop containing video graphic proof and was requesting a tribunal. During the course of the conversation, he refused to acknowledge he has been sectioned and was adamant he would be able to leave but was not forceful or physically attempting to leave.

**105.** When he was seen by ward doctor on the **26th of October** Mr Cordell feels he is in hospital because the police have “falsified” a report that led to him being kept on a curfew for years.

**106.** He proceeded to talk at length about circumstance that led him to be charged for handling of stolen goods and suspicion of burglary in **2013**. He believes the case was handled poorly and is sure the police were conspiring against him. “The abuse of process by the civil service was unreasonable”.

**107.** Following this he reports being placed on a 2-year injunction and a 5-year curfew. He feels this has led to a breakdown in a 13-year relationship he had. He also reports this affecting his company -a community interest company he started up. At one-point Mr Cordell also mentioned the police targeting him for holding large parties that he was adamant were not hosted by him.

**108.** Mr Cordell reports owning a couple of local festivals and talks about engaging with multiple charities helping children. He says he had to stop this as police were harassing him in front of the children. He alleges to own his own company, his own paper and has just bought his own book

maker for 70000 pounds. He also reports having 180000 friends on Facebook due to all his free parties.

**109.** When asked about his neighbours Mr Cordell said he believes his neighbours have been making up complaints about him. "My neighbours are calling up the police after forging the paperwork." He feels that his neighbours have been attacking him and reports feeling anxious in his house. Simon says he "kept writing to the police saying please can you protect me".

**110.** He does not think he is unwell and does not think he has a mental health problem. He admits he might be elevated but he believes this is a constructive state.

**111.** Mr Cordell reports not being compliant with any of his medication at any point. He is refusing to take any medication during this admission. "I've spent thousands of pounds showing you my brain, me being alert saves lives."

**112.** Mr Cordell would like to appeal his section and feels that by keeping him in hospital we are breaching his rights. "Physical or mental suffering amount to torture"

**113.** He reports sleeping, eating and drinking well. Later he suggested this may not be the case stating, "In the nighttime when my neighbours are asleep that's the best time for working".

**114.** Impression was that he presented with paranoid and grandiose delusions with significant mood component. In view of long-term symptoms this is most likely consistent with a schizoaffective disorder. He does not currently have capacity for treatment or admission.

**115.** He settled in over the weekend, personal hygiene remained poor, smell of cannabis on him was noticed.

**116.** On the **29th of October 2018** when he was seen by a nurse, he was irritable and quite hostile. He was

- on the phone to his relative, complaining about police and claimed to be falsely accused.

**117.** On the 29th of October Formulation meeting was held:

### **CARE COORDINATOR 'S FEEDBACK**

**118.** This is only the second time meeting Simon. There have been issues with reports he is assaulting other residents in his council accommodation.

### **NURSING REPORT**

**119.** He appears paranoid on the ward.

### **INTERVIEW WITH PATIENT**

**120.** Mr Cordell appeared very agitated and vocal and was keen to put across his opinion that he had been illegally detained.

**121.** Mr Cordell reports issues with police actions in regard to not giving him the ASBO folder properly - this was left outside instead of giving it to him directly.

**122.** Mr Cordell continued to explain other problems with the police's treatment of him. This includes the metropolitan police having placed a photo of Mr Cordell in a folder in regard to a party he had no involvement with. He denies being involved in any of the parties mentioned in the ASBO.

**123.** Mr Cordell spoke at length about the injustices surrounding his placement on curfew and the ASBO order.

**124.** He describes how on multiple times doctors have tried to assess him under the MHA and he has explained to them at each time the situation with the police. He was once placed under a section 2 and was able to appeal his section.

**125.** Mr Cordell reports the neighbours (72 floors up) trying to deliberately disturb him by making a lot of noise and flushing the toilet multiple times.

- photos of his company truck and hardware).
- 139. Mr Cordell 's mother is very upset that doctors have submitted reports stating that he is delusional and grandiose.
- 140. They feel the AMHP report is grossly inaccurate.
- 141. Mr Cordell 's uncle is also upset that the mental health team would not provide Mr Cordell with a letter to assist with his housing situation.
- 142. They explain that the reason Mr Cordell has not be prosecuted for the complaints made by the neighbours is because each time Mr Cordell is able to "prove his innocence" directly to the police.
- 143. Mr Cordell 's mother believes he is very stressed due to the conditions of the ASBO and his neighbours disturbing him.
- 144. His uncle would like us to check the website that Mr Cordell has set up to highlight the injustices against him "horrificcorruption.com". (other websites mentioned by Simon include the Wayback machine and TooSmooth.co.uk).
- 145. Impression was that Mr Cordell was unstable in mental state and behaviour. He presented with persecutory delusions and possibly auditory hallucinations.
- 146. Plan was:
  - c. Requires further review of notes
  - d. Liaise Enfield council re plans for housing - ask Rosie for input
- 147. Following the formulation meeting he presented very grandiose - showing staff and peers his website and that he has '20,000 emails and 500,000 phone contacts'. He seems elated and keen to get his message across.
- 148. Dr Timothy Rogers e-mailed Dr Greensides on the 30th of October 2018 as Mr Cordell was referred to a forensic sector prior MHAA and wrote that he has terrorised their patient (who lives above him) including one occasion taking him by

the throat and left our patient feeling unable to walk around on the floor or even flush his toilet chain for fear of sparking another altercation (with no basis) about excessive noise.

**149.** Mr Cordell was reviewed on the 31st of October 2018 by Dr Greensides (Consultant psychiatrist), Dr Elia and Dr Bruce:

**150.** Mr Cordell confirms his problems began in **2013**. He moved into his premises in **2013** - there was evidence of CO poisoning in the flat and all the boiler systems and alarms had to be replaced.

**151.** Mr Cordell has been held on curfew for a long time for organising a party and? wrongly accused of damaging the premises. Also was accused of burglary and handling of stolen goods - **he was found innocent on both accounts.**

**152.** Mr Cordell reports having had a "relationship" with his current partner Katy for the last ?20 years. She has a son from a previous relationship.

**153.** **The problems with the neighbours have been going on for 4 years now. Mr Cordell is concerned about his neighbours,** in particular to how their behaviour might affect their child. 6 flats in total in his council building - **the neighbours that are problematic are 2 floors above Mr Cordell's. These**

**MENTAL HEALTH NHS TRUST**

**154.** particular neighbours bang on the water pipes, stamps on the floor (this echo through the flat between) - this happens first thing in the morning and goes on through the day.

**155.** Mr Cordell believes his neighbours sit in their flat eavesdropping on Mr Cordell's whereabouts. When he enters the bathroom, they enter their bathroom and flush the toilet a lot. Simon has Video and Audio recordings throughout his flat in order to prove his innocence. There is a husband and wife living there as well as a new born baby. Mr Cordell reports he can hear this family talking but he can't make out what they are saying - he denies

them saying anything negative about him “they’ve never spoke to me”.

- 156.** Simon has personal information about his neighbour which he feels is proof of? tax evasion - he reports the family own 50 houses in the UK. The neighbour has changed their surname in order to accommodate some scheme to avoid? tax - Mr Cordell reports he has “100% evidence” that this is true and feels it is relevant to him because of how they are treating him. Mr Cordell believes what the neighbours are doing is a hate crime.
- 157.** Mr Cordell denies ever having felt like the TV was talking to him or that the council was advertising his information. Mr Cordell does feel his personal information is being advertised somehow - friends have approached him and have information about him he believes can only have come from secure computer systems.
- 158.** Mr Cordell is not concerned about his tenancy at the moment - he states he has recordings that prove his innocence. Simon is aware the council has told him to stay away from his neighbours - since this time he states he hasn’t approached his neighbours. He wants to publish a book about what has been going on. Simon does not appear to accept that he has become fixated on this issue.
- 159.** Mr Cordell does not think his problems with his neighbours are in any way due to him having a mental health problem. Mr Cordell wouldn’t like to take medication as he doesn’t feel he needs it and is concerned medication may impact his ability work. He is particularly concerned that the medication will “dope him out”.
- 160.** Mr Cordell states he has a good family support network. He is happy to see the ward psychologist.
- 161.** Mr Cordell has been informed that a referral to a forensic psychiatrist who may want to visit him on the ward.
- 162.** Impression was that he presented with persecutory delusions and poor insight into his condition.
- 163.** Not currently deemed to be a risk to himself or others.

**164.** He could be at high risk of losing accommodation if continues untreated. Plan was:

- c. For Section 17 leave
- d. No medication at present

**165.** Refer to ward Psychologist - Dr Patkas  
. He has terrorised our patient (who lives above him) including one occasion taking him by the throat and left our patient feeling unable to walk around on the floor or even flush his toilet chain for fear of sparking another altercation (with no basis) about excessive noise.

Mental Health NHS Trust

**Opinion and recommendations**

- 7.** Mr Cordell suffers from a mental disorder, the symptoms of which at present are persecutory delusions, grandiose beliefs and attitude. In addition, he also presented thought disordered with circumstantial thinking. Probably he has been experiencing auditory hallucinations too. His condition is complicated by poor insight into his mental health illness and substance misuse.
- 8.** This illness is currently of a nature and degree to warrant detention under section 2 of the mental health act.
- 9.** Without this there are risks to his health, principally mental health which is likely to continue to deteriorate without intervention. He is also at high risk from being evicted from his current accommodation which could put his mental and physical health at significant risk. His safety is compromised by possible retaliation from others when he is behaving aggressively towards other people. As well as the safety of others as he was aggressive to his neighbours, council employees and police prior to admission.
- 10.** This cannot be carried out in the community as he has limited insight and refuses intervention, tried for a number of years and failed.
- 11.** Should he be discharged then he will be referred to the HTT but is not likely to engage.

This man is hyper mental with flights of speech and ideation.

He has delusions that the police are targeting him are other residents in his block of flats.

He says people in the street are spitting at him because they believe he gave a woman herpes.

He is quite grandiose in his ideas about helping the world.

While with Doctor Greenside he persisted to prosiest thought or conversation that he believed that I was suffering with a Mental Health Disorder such as psychosis.

I continued to stay adamant that I am of good health and that I do not suffer from any of the symptoms that a person would suffer from if they did have Psychosis and my family and loved ones also agree with myself.

He told me that he wanted to put me onto medication again I told him that this was unfair and would be a breach of the Mental Health process as he had no evidence that warrants my detention or any form of a Mental Health disorder.

I asked doctor greenside if he does believe that I had a mental health illness such as psychosis why would he give me un escorted leave of the Dorset Hospital wing two days into my detention, he never had a fair response to my simple question I also reminded him that I had not failed in that obligation of trust.

The next reply I said to the doctor greenside was that he is abusing his position as a clinical practitioner and that he had no legal right after I had proved that the reason for my detention was flawed within the assessment 2 and therefore incorrect information and also that of misleading information.

Doctor Greenside asked me if I had been smoking any weed, I asked him why he would ask me this and he explained that he thought that he could smell weed from inside my room when he came to it early to take me out for our meeting. I gave him the reply of no I have not been smoking weed in my room and that I was happy to do a urine sample.

I explained to him that I had just left the wing on unescorted leave and could also smell somebody outside smoking it.

While talking I explained that I had applied for my tribunal and wished for an absolute discharge of any Mental Health illness and understood that this would be the correct professional opinion.

At the end of our conversation, I reminded him of a part of or past short conversation, when doing so I explained that he had said to me himself that he did not believe that I was a danger to myself or towards any other person and that is why he had granted me unescorted leave of the Hospital wing that is named as Dorset

Today I got awoken by my Neighbors once again who are addressed at 117 Burncroft Avenue who are the Mathiyalagan family. What is getting done to me is achieved with evil criminal intentions.

When explain what was on this day getting done to me illegal and what is also a clear breach of my human rights, I explain that, when sitting down at home on my sofa I heard a knock on my front door when I went to answer it, I first took a look through my front door keyhole, when doing so, I noticed two police officers one male and one female. I can remember asking the woman officer a question What I asked her was why they were outside of my front door and in short to why I asked the question. is I wanted to understand for what reason they wanted to speak to me, I received a reply of the Female police officer who replied to my question by saying that she just wanted to chat to me about something, I can remember replying to her by saying I can chat to you still without opening my front door and in blunt saying to her please can you just explain to me what you want, she said that she just wanted to give me some paperwork and did not want to arrest me for anything I again replied to her in a deeper voice and told her that I will not accept anything from them.

I held my letter box closed so that no mail could enter inside of my flat from the police officers who were outside. Soon afterwards I heard them both leave my communal hallway. When I was sure that they had left the building, I opened my front door. I took a look on the floor and noticed that there was a letter left on the floor.

After picking it up I took a short peek at the heading and realised that it was another Harassment Letter

2) On the  
**\*\*/\*\*/20\*\*** it is  
said that

against my person in Knowing that I never done anything wrong again so to be able to receive such a notice in a fair motion.

I Decided to question the police officer who had tried to post the letter through m front door.

In doing so I quickly run outside of my front communal door and looked around the streets locations to see if I could still catch up with the two police officers.

I noticed them both to my left when coming out of my building still walking towards their police car, so I called out to them in a polite manner / not to load or neither hash in voice.

The police officers turned around towards myself and asked what I wanted, I replied to them both I just wanted to chat to them about what has been going on and as I was doing so I hurried towards them but in a settled manner, as I approached them I took my time as I chose my words and because of this I can remember what I said, what I did say was after noticing that they were both were body cameras and went a little something like this: --

**Woman Police Officer:**  
what do you want?

**Simon:**  
I would like to report a crime. A police officer has caused me to suffer from gross Misconduct and would like to report it to you under the police efficiency Act of Law 1999 or 2003 or under any police whistle blowing policy you must be in accordance to.

What I am reporting to you is that a police Officer that who is name as Steven Elesmore who works for your branch has forge official paperwork and then on filed it against me alongside with other members of the Metropolitans Police Force.

**Woman Police Officer:**  
I am not dealing with that; I am here only to serve you a Harassment Letter.

**Simon:**  
That is not correct protocol when I explain to you about corruption that has been caused by one of your colleges must act upon it.

and after a few seconds I felt him become successful in his ambush against my person I can remember felling my hand and knees hurting me as the hit the concrete floor. I can remember finding it getting harder and harder to breath and with what felt like my last breath I managed to make a voice in the formation of a screech the words that came out of my mouth were that of “you are choking me.”

**Woman Police Officer:**

The woman officer continued to try and get my hands while she continues to scream that I was still spitting even more so than from the start of their unneeded issues of concern with me.

**Simon:**

I can remember thinking he is going to kill me if I do not stop him and his bad temper, and in realizing so, I remembered the police body cameras were still recording so choose to take caution in doing so, what I did was stand up and run away from the two police officers. I run into my block and felt them hot on my toes I closed my communal door and reminded the polices officers of my dog by shouting my dog my dog my dog be careful my dog.

**Woman & Male Police Officers:**

Never followed me into my home and I decided to leave through my backdoor due to wanting things too cool down from both parties involved myself and police officers.

I walked through Durant’s Park Enfield London and then walked up the Hertford Road

And back down Green Street to my home on my route I noticed a police car driving and decided that the best thing to do was stop the petrol car and ask for their assistance.

I was happy to see different police officer from the ones that had just attacked me and made this point very clear to them I got told that I was under arrest and then on jumped in the back of the police car with them. While in the police car I got told that I was under arrest for assault “spitting at police officer” I explained the truth to them in short.

|                                    | <p>said that the police were in attendance, and they were seizing the sound system. I remember getting up from what I had prior gotten occupied with and leaving my home address at around 1am hours, so to attend to the private party location, which took place indoors.</p> <p>Then soon after I arrived at the client's destination, at around the time of; 2:00 hours, I would claim that I took one hour and ten minutes to attend to, as I drove outside of the address that I had to be at so to park my car I can remember there being lots of different members of the police who were already present. When I approached to the address front door on my two feet, to which address I got given by the client, the police were there blocking any persons entrance, so I spoke to the police officers and explained to them by circumstances, this meant that I showed them a copy of the higher invoice and a copy of my terms and conditions of hire, I got allowed entry by the police officers who were present to pack the sound system away and once I finished doing this, I asked to get released with the equipment, it then got explained that the equipment was to get confiscated.</p> <p>After a lengthy, debate, I had no option but to allow the police officers to seize the equipment, I got allowed to collect the sound system from the police at a later date, without being arrested or any charges being brought into motion. This meant that I never returned the sound system to the same client ever again as he breached my terms and conditions and at no time did, I knowingly supply equipment for an illegal party. A few months later this date got added to the Anti-Social Behavior Order against me, even low I caused no problems.</p> <p><b>Evidence: --</b></p> |  |

All of my detention in the cell I was on camera in the police cell.

Finally, the custody officer came up to me and told me that he was dropping the case against me, but I could still not leave due to the fact that the Mental Health Doctors wanted to see me.

I asked him am I obliged to speak to them and explained to him that I had not acted with a Mental Illness throughout my detention in the police station in fact I had done the complete opposite and asked for food, drink, blanket, medical care, to speak to a solicitor, to speak to my mother, I managed to sleep for a while also.

The sergeant explained to me that it was not down to the police that the doctors wanted me to speak with myself and I continued by explaining to him that it was also not down to anything that I had done while in custody or beforehand as well.

He pleaded with me to be in compliance to his official public servant's request in so many different words, by asked me to confirm to himself that I will do so, I explained to him that I did not want to speak to any doctors and did not see any reason to warrant such forced treatment but due to him having me detained in a police cell I did not feel like I did have any other choose in the matter.

**Doctors came to cell door: --**

Our conversation came to an end and as he moved his head away from the cell hatch, I noticed a few more people outside of my cell door, when taking a closer look, I can remember that in doing so I noticed quite a few of them from other prior occasions, as if in to mean who they were. The reason I remembered who they were easily is because on the

Most of them came to my home on an unexpected visit: --

**What had happened on the 25/10/2018? --**

What had happened is that the doctors from Silver Street Crisis Team had made a telephone call to my mother in the morning of the

**25/10/2018**

I never found this out until later in the evening as I had left my mobile phone turned off from the night before

hand and also due to my mother having to go to another court case in **Oxford on the same Morning.**

While indoor I received a knock on my front door when I went to see who it was, I heard a reply of it is the doctors we want to speak to you about your mental health, I was quite shocked for the doctors to be at my front door again after all that had happened as of so far between me and them self's.

Because I never knew they were coming I never rushed and tydeid up my flat when first waking up and on stead had started work on my computer.

When speaking to the doctors with my home front door closed at first, I heard a man's voice say hello Simon we are the doctors, and we want to do an assessment on your Mental Health under the Mental Health Act 1983.

I decided not to open my front door at first and to find out more to why they believed they had the rights to do yet again another assessment on me by speaking to them with the door keep shut.

They would not explain much to me and all preferred to walk away.

I waited for them to go out the door and tried to call my mother, but her mobile phone was turned off.

After a few moments I decided to go outside and learn more to why they wanted to use the Mental Health Act against my wellbeing.

When outside of my block of flats I could see a few of the Mental Health team members sitting on a low-built wall and the rest standing together all talking.

I approached them and asked why they keep attending my home address without any official person ever taking a statement of myself about what I claim about on stead of victimising me and then on doing the correct follow-up's.

The official public servants outside of my home said the normal reply to myself by this date and that was "we got referred to you"

I explained that some person must do the correct follow ups about what I claim about for once and then these fake claims against me might stop.

The doctors said to me that speaking outside in the road will not help, so I offered for them to come

While putting good reason that an assessment 2 must not get warranted as towards the grounds of the detention not being warranted, the police officer / Sargent allowed for this conversation to continue and opened my cell door and while we were taking.

The Doctors said that they needed a few minutes on their own to discuss with each other what was going on and not to long after he arrived back to my cell door and undone the cell hatch again, but this time told me that I was getting sectioned under the Mental Health Act under an assessment 2.

I explained to them all present that I did not think that this was a fair assessment as I had not even been taken into a room with them or neither had they come into a room with me and that the conversation that we had just had with each other was just merely an introduction.

With this the doctors walked away and closed the hatch on the cell door.

Very soon after a normal ambulance arrive and two female officers who were both polite took me to the hospital named as Chaser Farm Hospital and then after brought me on to the Dorset wing.

Mr. Simon Cordell

**My reasons for my opinions are: --**

Mr. Cordell is known to psychiatric services but has not engaged with them in recent years. Today he was arrested for spitting at a police officer after they were called about him harassing his neighbors.

He has a number of non- molestations orders Against him, forbidding him from contacting them. On examination Mr. Cordell displayed a range of affective and psychiatric symptoms.

He Spoke rapidly and was thought disordered with overinclusive and tangential speech.

He held a number of grandiose and delusional beliefs.

He told us that the police were conspiring with medics and the council to silence him as he had uncovered police corruption.

He said he was targeted by police as they were envied of his abilities.

He told us that his neighbors two floors above were controlling the neighbors below them and caused them to stamp on the floor and disturb Mr. Cordell.

He did not believe that he was Mental unwell and was adamant that he would not see a psychiatrist.

He lacked insight into his presentation.

He was irritable and has assaulted police officers and harassed his neighbours in recent days.

He poses a risk to others; therefore, his behavior poses him a risk of retaliatory Symptoms. This places his Health and safety at risk.

There is evidence that he has a Mental illness of a nature and degree which warrants assessment and treatment in hospital and without this there is a risk of harm to his health and safety and the safety of others.

**My reasons for my opinions are: --**

This man is hyper mental with flights of speech and ideation.

He has delusions that the police are targeting him are other residents in his block of flats.

He says people in the street are spitting at him because they believe he gave a woman herpes.

2014 after the deaths in his family and the carbon monoxide poisoning.

- He has been taping everything and has Closed circuit TV outside his flat.
- It is reported that he believes the TV is talking about him.

- given his presentation today he would be a risk to others if not assessed under the mental health act and then treated.

(DATE)  
25 October 2018

Date if not applicable  
\*I am approved under section 12 of the Act as having special experience in the diagnosis or treatment of mental disorder.

In my opinion  
(a) this patient is suffering from mental disorder of a nature or degree which warrants the detention of the patient in hospital for assessment (or for assessment followed by medical treatment) for at least a limited period,  
AND  
(b) ought to be so detained

(Delete the incidents not applicable)  
(i) in the interests of the patient's own health  
(ii) in the interests of the patient's own safety  
(iii) with a view to the protection of other persons

My reasons for these opinions are:  
(Your reasons should cover both (a) and (b) above. As part of these, describe the patient's symptoms and behaviour and explain how those symptoms and behaviour lead you to your opinion; explain why the patient ought to be admitted to hospital and why informal admission is not appropriate.)

Mr Cordell is known to psychiatric services but has not engaged with them in recent years. Today he was arrested for spitting at a police officer after they were called about him worrying his neighbours. He has a number of non-molestation orders against him, including his own conviction for it. On examination Mr Cordell displayed a range of affective and psychotic symptoms. He spoke rapidly and was thought disordered with incoherence and tangential speech. He held a number of genuine delusions (If you need to continue on a separate sheet please indicate here ☐ and attach that sheet to this form.)

and delusional beliefs. He told us that the police were conspiring with his neighbours and the council to silence him as he had uncovered police corruption. He said he was targeted by police as they were envious of his activities. He told us that his neighbour had from above been throwing the neighbour below them and caused them to stand on the floor and disturb Mr Cordell. He did not believe that he was mentally unwell and was adamant he would not see a psychiatrist. He lacked insight into his presentation. He was irritable and was convinced police officers and his own neighbours in recent days. He poses a risk to other people. His behaviour places him at risk of retaliating against others and he will not accept treatment for his hypomanic symptoms. This places his health and safety at risk. There is evidence therefore that he has a mental illness of a nature and degree which warrants assessment and treatment in hospital and without this there is a risk of harm to his health and safety and the safety of others.

Complete the following if you do not know who the nearest relative is.

Deliver (a) or (b)

[(a) I have been unable to ascertain who is the patient's nearest relative within the meaning of the Act.]

[(b) To the best of my knowledge and belief this patient has no nearest relative within the meaning of the Act.]

The remainder of the form must be completed in all cases.

(date) I last saw the patient on 25/10/2014 which was within the period of 14 days ending on the day this application is completed.

I have interviewed the patient and I am satisfied that detention in a hospital is in all the circumstances of the case the most appropriate way of providing the care and medical treatment of which the patient stands in need.

This application is founded on two medical recommendations in the prescribed form.

If neither of the medical practitioners had previous acquaintance with the patient before making their recommendations, please explain why you could not get a recommendation from a medical practitioner who did have previous acquaintance with the patient:-

Chase Farm Mental Hospital on an Assessment Wing!

I woke up at around the time of 7:00am due to some staff opening the blinds on the bedroom door window to look inside and see what I was doing. I Cleaned the shower in my room even low it did look clean.

I Made sure my bed was made and the rest of the room that I resided in was clean also.

There was no Doctor available to Assess me!

No Staff came up to me to talk about my detention or on ward care plan!

**PAST PSYCHIATRIC HX**

- 3.** Disrupted childhood, CSE in paedophile ring, violent father, adolescence in care, under CAMHS
- 4.** Self-reports to have tried to hang himself twice at the age of 16 when in a young offender's institution; He was moved to a high security hospital and kept in seclusion on a number of occasions.
- 5.** Denies any contact with MHS between that point and **2014**
- 6.** March **2014** - Adjustment reaction "anxiety and suicidal thoughts over the last nine months in the context of having a pending court case" offered Sertraline 50mg OD
- 7. November 2014** - Simon's mother called the HTT. Paranoid psychosis - not deemed sanctionable under MHA
- 8. November 2015** - Simon's mother called the BEH HUB. Simon not eating, not sleeping, paranoid, saying people are talking about him or laughing at him, believes the government is advertising things about him, the TV is talking about him and talking directly to him. Smoking cannabis. Not sanctionable under MHA.
- 9. ■ February 2016** Warrant 135 (1) - not sufficient evidence of mental illness.
- 10. August 2016** admitted under Section 2 of the MHA following custody at Wood Green station for threats to kill - section 2 reversed on appeal. Discharged on Olanzapine 5mg and followed up by EIS. Reports noncompliance on discharge. Discharged from EIS **Dec 2016** due to non-engagement.
- 11.** Tenancy breach pre action letter **15/10/18** from Enfield council- antisocial behaviour since **2016**, 48 accounts of threatening and abusive behaviour
- 12. July 2018** Psychiatric assessment by Dr Dinakaran "Mr Cordell is currently suffering from symptoms of "**schizoaffective disorder**" and presents with florid psychotic symptoms"

**Progress Notes**

### **CARE COORDINATOR**

- 16.** This is only the second time meeting Simon. There have been issues with reports he is assaulting other residents in his council accommodation.

### **NURSING REPORT**

- 17.** Appears paranoid on the ward.

### **INTERVIEW WITH PATIENT**

- 18.** Simon appears very agitated and vocal and is keen to put across his opinion that he has been illegally detained.
- 19.** Simon reports issues with police actions in regard to not giving him the ASBO folder properly - this was left outside instead of giving it to him directly. Simon continued to explain other problems with the police's treatment of him. This includes the metropolitan police having placed a photo of Simon in a folder in regard to a party he had no involvement with. He denies being involved in any of the parties mentioned in the ASBO. Simon spoke at length about the injustices surrounding his placement on curfew and the ASBO order.
- 20.** He describes how on multiple times doctors have tried to assess him under the MHA and he has explained to them at each time the situation with the police. He was once placed under a section 2

and was able to appeal his section.

**21.** Simon reports the neighbours (**11** floors up) trying to deliberately disturb him by making a lot of noise and flushing the toilet multiple times. He feels they want him to get distressed and go upstairs to address them. They have been doing this over the last 4 years and are doing this throughout the day. From Simons flat you can even hear them talking - there is apparently very poor sound proofing.

**22.** Simon has described a council official as having forged statements and falsely accusing him of threatening his life. Simon reports that he is being assaulted by his neighbours as is his partner's small child. He feels the stress from this situation may have been linked to his partner's miscarriage. Simon denies any acts of antisocial behaviour, even in retaliation. At every point where he approaches the upstairs neighbours, he states he calls the police to ask them to "protect" him.

**23.** In regard to the recent arrest, he reports the police attended due to a fraudulent call from the neighbours. The police tried to hand him a breach of harassment order which Simon ripped and spat on the paper. The police officer then yelled that he had spat on her. He was then arrested for assault on a police officer. This charge was dropped in the police station, and he was referred for an MHA.

**24.** Simon is currently on benefits. He reports the expensive hardware he owns (e.g. 70000-pound bookmaker) he buys broken and second hand cheaply and fixes them. Simon works from home. He built a new model constitution – a community interest company which was a charity farm.

#### **COLLATERAL INFORMATION:**

**25.** His mother and uncle would like MHS to stop referring to Simon reporting the police as being prejudice against him as delusional - they believe this can be proved (showing photos of his company truck and hardware).

**26.** Simon's mother is very upset that doctors have submitted reports stating that he is delusional and grandiose. They feel the AMHP report is grossly

inaccurate.

- 27.** Simon's uncle is also upset that the MH team would not provide Simon with a letter to assist with his housing situation.
- 28.** They explain that the reason Simon has not be prosecuted for the complaints made by the neighbours is because each time Simon is able to "prove his innocence" directly to the police.
- 29.** Simon's mother believes he is very stressed due to the conditions of the ASBO and his neighbours disturbing him.
- 30.** His uncle would like us to check the website that Simon has set up to highlight the injustices against him "horrificcorruption.com". (other websites mentioned by Simon include the Wayback machine and TooSmooth)

#### Interview with Patient

Simon confirms his problems began in **2013**. He moved into his premises in **2013** - there was evidence of CO poisoning in the flat and all the boiler systems and alarms had to be replaced.

Simon has been held on curfew for a long time for organising a party and? wrongly accused of damaging the premises. Also was accused of burglary and handling of stolen goods - he was found innocent on both accounts.

Simon reports having had a "relationship" with his current partner Katy for the last ?20 years. She has a son from a previous relationship.

The problems with the neighbours have been going on for 4 years now. Simon is concerned about his neighbours, in particular to how their behaviour might affect their child. 6 flats in total in his council building - the neighbours that are problematic are 2 floors above Simons. These particular neighbours bang on the water pipes, stamps on the floor (these echoes through the flat between) - this happens first thing in the morning and goes on through the day.

Simon believes his neighbours sit in their flat eavesdropping on Simon's whereabouts. When he enters the bathroom, they enter their bathroom and flush the toilet a lot. Simon has Video and Audio recordings throughout his flat in order to prove his innocence. There is a husband and wife living there as well as a new born baby. Simon reports he can hear this family talking but he can't make out what they are saying - he denies them saying anything negative about him "they've never spoke to me". Simon has personal information about his neighbour which he feels is proof of? tax evasion - he reports the family own 50 houses in the UK. The neighbour has changed their surname in order to accommodate some scheme to avoid? tax - Simon reports he has "100% evidence" that this is true and feels it is relevant to him because of how they are treating him. Simon believes what the neighbours are doing is a hate crime.

Simon denies ever having felt like the TV was talking to him or that the council was advertising his information. Simon does feel his personal

|  | <p>In the evening time a Nurse came to my room that I have got detained in and explained to me that I am to get moved onto another wing below mine to which is a treatment wing that is named as Sussex Wing I explained that I did not think that this was a fair or reasonable request from the staff to ask of me due to the fact that doctor Greenside had not diagnosed me with any Mental Health issues as of that time then. Because of what I got told I decided the best form of action was to make a phone call to my mother While on the phone to her I explained what the nurse had just said to me. She was very surprised of what I had just said to her I again latter decided to ask for leave and this got granted to me without any issues arising. There is a Bad leak running all across the main floor in the communal room coming from the water machine. **CIRCUMSTANCES OF ADMISSION AND  
BACKGROUND**

- 1.** Mr Cordell is a 37-year-old man with previous diagnosis of F29X - Unspecified nonorganic psychosis. He has been known to CAMHS service in the past and to Adult Mental Health Services since **2014**. However, he has not been engaging with the services in recent years despite numerous attempts from mental health teams.
- 2.** Mr Cordell become significantly unwell in mental health in **2014**. He deteriorated significantly in mental state but he refused engage with mental health service and declined to take medication. Consequently, he had to be detained under Section 2 of MHA in **2016**. He was treated with medication (Olanzapine) during the admission but soon after discharge he stopped taking his medication. He continued to be seen by Early Intervention service following a discharge, but he continued to refuse any treatment for his condition. This led to further deterioration in mental health. When Mr Cordell is unwell, he presents with persecutory delusions about his neighbours, council staff and the police. As a result of paranoid beliefs, he becomes more aggressive and threatening especially towards neighbours. From **2016 to January 2018** there were numerous complaints from neighbours reported about Nr Cordell's acts of harassment and antisocial behaviour. This led to an interim injunction order (harassment order) to be issued against Mr Cordell, at the Edmonton County Court, in **January 2018**. Mr Cordell breached the order on multiple occasions. It has been reported that his neighbours have been assaulted, harassed and have received threats from Mr Cordell. In addition, Mr Cordell disengaged with EIS.
- 3.** In **April 2018** further deterioration in mental health was observed when he contacted the police and complained about the neighbours making noise.

EIS team was contacted, and they offered to review Mr Cordell but he refused to work with them again.

4. On the 1st of June he was arrested for harassing his neighbours and breaching the injunction order against him. He threatened his neighbour who was at the time with her two children that he

- will kill her and her children " You fucking bitch, I have a bomb for you, I will get in your block, kill you and your children At that point, EIS stated that he has gone beyond EIS three year treatment period and therefore they referred his case to Enfield North Locality Team in **June 2018**. During the period of next few months (from **June 2018 until October 2018** - they were reported numerous accounts of harassment and assaults to his council on his neighbour) Mr Cordell has continued to harass his neighbours and has refused to engage with mental health services. Few neighbours already moved out from their flats due to Mr Cordell's aggressive behaviour and Enfield Council decided to seek possession of Mr Cordell's flat via the courts. In a recent court case, the judge recommended that Enfield Council re-house Mr Cordell on the proviso that he engages with the MH Team. However, he failed to do that.
5. In **October 2018**, Mr Cordell was physically aggressive towards another service user who lives in the same building as him. Mr Cordell took him by the throat and left him feeling unable to walk around on the floor or even flush his toilet chain for fear of sparking another altercation (with no basis) about excessive noise.
  6. This triggered a safeguarding process and Enfield Adult North Locality Team decided to organise MHA assessment as Mr Cordell refused to engage with them.

It is also alleged that as they left the block, you ran after them swearing and shouting abuse at your neighbour and demanding that he must pay you some money if he wants you to leave him alone. You also said to him that you have all their personal details including their dates of birth and bank details.

**86. On 1st March 2018** it is alleged that you knocked on one of your neighbours' doors loudly, you started rattling with their letter box and started shouting. This went on for 5 to 10 minutes, but you left after you've heard that the neighbour was calling the police.

You also swore at a judge. These incidents were witnessed by members of staff working at the Court.

**94. On 12th September 2018** at about 3.50pm, you called one of your neighbours on his mobile phone using a private number. It is not known how you obtained his number, but he terminated the call. You called again using the same private number, but he terminated the call as soon as he heard your voice. You called repeatedly after that.

**95. On 24th September 2018** at about 11.30am, one of your neighbours returned home from dropping her daughter at school and as she entered their block of flat, she noticed that the middle door on the ground floor was open as well as your front door. As she went up the stairs to their second floor flat, your dog came out of your flat and started barking at her. The neighbour had to run up the stairs to her flat to escape from the dog. It was reported that your dog is always barking whenever they go out or return to the block and the neighbour and 4 years old daughter are terrified.

**Treatment and progress on the ward**

- 100.** On admission to Dorset ward, Mr Cordell presented elated, mildly irritable and thought disordered. On arrival to the room, he remained calm and polite. He started the conversation by asking for duty doctor's name, which he wrote down on a paper. He then stated he has been detained here illegally because they think he is grandiose. He then went onto give the duty doctor a timeline of events which were largely related to the police and his connection with mental health services. In summary, he holds paranoid ideas that the police have charged him 'in illegal ways' for an ASBO for 'organisation of illegal raves. This has led to several on-going issues with the police who have involved mental health services, and it is a conspiracy against him.
- 101.** He states he wasn't assessed properly by doctors today (**25/10/18**) and that the doctors who saw him today (**25/10/18**) have previously tried to section him and 'failed' because he has 'video recordings' to prove he is innocent. He referred to multiple acts and dates which apparently are being broken by keeping him here.
- 102.** He states he has several businesses that the police have tried to stop, including 'owning festivals' and his website called 'horrific corruption' and associated newsroom which he uses to expose police and doctors who are working in illegal ways. He states he has 'been wronged 78 times by the police' and will 'expose all of the doctors and police' involved.
- 103.** He spoke about being a 'privileged member of the community' and has never tried to hurt anyone. He reports the police have framed him in a 'sex scandal' and caused multiple issues. He described a negative relationship with neighbours and states that they bang from above continuously. He states a previous partner was pregnant and the neighbours banging led to the

He believes the case was handled poorly and is sure the police were conspiring against him. “The abuse of process by the civil service was unreasonable”.</p> <p><b>107.</b> Following this he reports being placed on a 2-year injunction and a 5-year curfew. Simon says he “kept writing to the police saying please can you protect me”.

**110.** He does not think he is unwell and does not think he has a mental health problem. He admits he might be elevated but he believes this is a constructive state.

**111.** Mr Cordell reports not being compliant with any of his medication at any point. He is refusing to take any medication during this admission. “I’ve spent thousands of pounds showing you my brain, me being alert saves lives.”

**112.** Mr Cordell would like to appeal his section and feels that by keeping him in hospital we are breaching his rights. “Physical or mental suffering amount to torture”

**113.** He reports sleeping, eating and drinking well. Later he suggested this may not be the case stating, “In the nighttime when my neighbours are asleep that’s the best time for working”.

**114.** Impression was that he presented with paranoid and grandiose delusions with significant mood component. In view of long-term symptoms this is most likely consistent with a schizoaffective disorder. He does not currently have capacity for treatment or admission.

**115.** He settled in over the weekend, personal hygiene remained poor, smell of cannabis on him was noticed.

**116.** On the 29th of October 2018 when he was seen by a nurse, he was irritable and quite hostile. He was

- on the phone to his relative, complaining about police and claimed to be falsely accused.

**117.** On the 29th of October Formulation meeting was held:

**CARE COORDINATOR ‘S FEEDBACK**

**118.** This is only the second time meeting Simon.  
There have been issues with reports he is  
assaulting other residents in his council  
accommodation.

#### **NURSING REPORT**

**119.** He **appears** paranoid on the ward.

#### **INTERVIEW WITH PATIENT**

**120.** Mr Cordell appeared very agitated and vocal and  
was keen to put across his opinion that he had  
been illegally detained.

**121.** Mr Cordell reports issues with police actions in  
regard to not giving him the ASBO folder properly -  
this was left outside instead of giving it to him  
directly.

**122.** Mr Cordell continued to explain other problems  
with the police's treatment of him. **This includes  
the metropolitan police having placed a photo of  
Mr Cordell in a folder in regard to a party he had no  
involvement with. He denies being involved in any  
of the parties mentioned in the ASBO.**

**123.** Mr Cordell spoke at length about the injustices  
surrounding his placement on curfew and the  
ASBO order.

**124.** **He describes how on multiple times doctors  
have tried to assess him under the MHA and he  
has explained to them at each time the situation  
with the police. He was once placed under a  
section 2 and was able to appeal his section.**

**125.** **Mr Cordell reports the neighbours (72 floors up)  
trying to deliberately disturb him by making a lot of  
noise and flushing the toilet multiple times.**

**126.** He feels they want him to get distressed and go  
upstairs to address them.

**127.** They have been doing this over the last 4 years  
and are doing this throughout the day.

**128.** From Mr Cordell's flat you can even hear them  
talking - there is apparently very poor sound  
proofing.

- 129.** Mr Cordell has described a council official as having forged statements and falsely accusing him of threatening his life.
- 130.** Mr Cordell reports that he is being assaulted by his neighbours as is his partner's small child. He feels the stress from this situation may have been linked to his partner's miscarriage. Mr Cordell denies any acts of antisocial behaviour, even in retaliation.
- 131.** At every point where he approaches the upstairs neighbours, he states he calls the police to ask them to "protect" him.
- 132.** In regards to the recent arrest he reports the police attended due to a fraudulent call from the neighbours. The police tried to hand him a breach of harassment order which Mr Cordell ripped and spat on the paper.

**Opinion and recommendations**

- 13.** Mr Cordell suffers from a mental disorder, the symptoms of which at present are persecutory delusions, grandiose beliefs and attitude. In addition, he also presented thought disordered with circumstantial thinking. Probably he has been experiencing auditory hallucinations too. His condition is complicated by poor insight into his mental health illness and substance misuse.
- 14.** This illness is currently of a nature and degree to warrant detention under section 2 of the mental health act.
- 15.** Without this there are risks to his health, principally mental health which is likely to continue to deteriorate without intervention. He is also at high risk from being evicted from his current accommodation which could put his mental and physical health at significant risk. His safety is compromised by possible retaliation from others when he is behaving aggressively towards other people. As well as the safety of others as he was aggressive to his neighbours, council employees and police prior to admission.
- 16.** This cannot be carried out in the community as he has limited insight and refuses intervention, tried for a number of years and failed.
- 17.** Should he be discharged then he will be referred to the HTT but is not likely to engage.
- 18.** Tribunal need no special arrangements to accommodate Mr Cordell.

Monday Morning, I awoke to the now normal daily routine and soon after spoke to a kind gentleman who is a part of the estate management team, he oversees my problem of cause and retried it with ease E.G “broken bathroom window due to not being able to shut correctly”

What doctor green explained to me; next I think I took very well. He explained to me that he wanted to put me onto a section three of the Mental Health Act 1983.

How it happened!

Just before lunch time Doctor Greenside came to my room and asked me for a meeting with me. I agreed to what he had asked and walked with him into another room, when sitting down together we were both left quietly alone and then Doctor Greenside started to explain to me that he wanted to place me of the section 2 of the Mental Health Act 1983 and on to A section 3 of that act.

I took my time and asked him why he believed this was warranted as to the initial reasons to why I had been placed on a section two had been proven to be inaccurate to the assessment documentation of its statement of facts.

We went through what I had gotten accused of when first getting detained to hospital, which is: --

**1.** Mr. Cordell is known to psychiatric services but has not engaged with them in recent years.

**Reply: --**

This information is undermining towards the defamation of the definition of my character and influences a person beliefs into believing that I have gotten treated under the Mental Health Act 1983 as a person who has been diagnosed with a mental illness, to which I have not and to further my issues of raised concern it continues to state that I have not then on after accepted treatment as it states that I have not engaged with the Mental health Service in the following years to pass. This information is also not an 100% accurate fact towards the statement of the maker. As I have personal Telephoned Lucas house and also that of the Silver Street Mental Health Assessment Team arranged a meeting that did take place at my home address to which I took

the Minutes of them meetings in a digital format to which I still claim the legal rights of and as a conclusion of them meetings I got diagnosed of well sanity.

**2.** Today he was arrested for spitting at a police officer after they were called about him harassing his neighbors.

**Reply: --**

**3.** He has a number of non- molestation orders against him, forbidding him from contacting them.

**reasons are: --**

This man is hyper mental with flights of speech and ideation.

He has delusions that the police are targeting him are other residents in his block of flats.

He says people in the street are spitting at him because they believe he gave a woman herpes.

He is quite grandiose in his ideas about helping the world.

While with Doctor Greenside he persisted to prosiest thought or conversation that he believed that I was suffering with a Mental Health Disorder such as psychosis.

I continued to stay adamant that I am of good health and that I do not suffer from any of the symptoms that a person would suffer from if they did have Psychosis and my family and loved ones also agree with myself.

He told me that he wanted to put me onto medication again I told him that this was unfair and would be a breach of the Mental Health process as he had no evidence that warrants my detention or any form of a Mental Health disorder.

I asked doctor greenside if he does believe that I had a mental health illness such as psychosis why would

he give me un escorted leave of the Dorset Hospital wing two days into my detention, he never had a fair response to my simple question I also reminded him that I had not failed in that obligation of trust.

The next reply I said to the doctor greenside was that he is abusing his position as a clinical practitioner and that he had no legal right after I had proved that the reason for my detention was flawed within the assessment 2 and therefore incorrect information and also that of misleading information.

Doctor Greenside asked me if I had been smoking any weed, I asked him why he would ask me this and he explained that he thought that he could smell weed from inside my room when he came to it early to take me out for our meeting. I gave him the reply of no I have not been smoking weed in my room and that I was happy to do a urine sample.

I explained to him that I had just left the wing on unescorted leave and could also smell somebody outside smoking it.

While talking I explained that I had applied for my tribunal and wished for an absolute discharge of any Mental Health illness and understood that this would be the correct professional opinion.

At the end of our conversation, I reminded him of a part of or past short conversation, when doing so I explained that he had said to me himself that he did not believe that I was a danger to myself or towards any other person and that is why he had granted me unescorted leave of the Hospital wing that is named as Dorset

Doctor Greenside finished or meeting by explain that he believed in the proof of what I had shown him to be correct as to the assessment 2 sheets wrote context being incorrect and told myself that he believed that since **2014** these problems that I had been questioned about by he had now caused me to suffer with Psychosis. I knew this not to be true.

Our meeting came to an end and I went back to my room on the hospital wing.

I took Leave of the wing at the time of I arrived back without any issues.

I had a long discussion with his mother on Friday, I was not able to write up on RIO then as it was not working

I explained that I felt Simon was unwell and that he had paranoid psychotic symptoms and I felt at times was thought disordered, and heard things.

I didn't accept that the persecution he described from his neighbour one floor up was happening as I didn't believe this was possible and I felt what was being described was paranoid psychosis. His mother does not agree and feels that this is to do with poor sound proofing St deliberate targeting by a neighbour and subsequent persecution by the authorities. she asked me for a letter to be given to the legal dept, of Enfield council, advocating for simon to have a two bed property so that someone can stay to provide support for him.

I told her we do not write letters of this nature but that if the dept got in touch with us we would answer any questions they had.

she gave the details as Ludmilla Lyavoo tel 02083798323 [ludmilla.lvavoo@enfield.gov.uk](mailto:ludmilla.lvavoo@enfield.gov.uk)

I explained to his mother that I intended on applying for a section 3 as I felt he needed some treatment 5/11/18

I interviewed simon.

we went over some of the things, he maintained that the neighbour one floor above was persecuting him and was able to locate him in his flat and then bang, flush the toilet and make noise, the purpose of which was persecution.

he confirmed that this happens at all times of day and even if he changes his routine etc.

I asked him about the neighbour directly above

he said he was OK. but went on to describe one time when he 'went mad in his flat, following me round and banging on the floor like crazy' He admitted that he confronted him after this, but denied any assault etc (I have been informed that he attacked this neighbour and that he was subsequently very frightened to flush his toilet)

I explained to Simon that I felt he was unwell with a paranoid psychosis and that I felt he needed to take some treatment, he disagreed and then accused me of 'being leaned on by people above you' On closer questioning he was referring to the police.

I asked him if he smoked much cannabis, he said he used to, then said every now & then. I asked him about the smell of cannabis in his room, he said that he'd had a few visitors.

he agreed to provide a urine sample  
at l/v

he is relatively well presented

his speech is rapid but not pressured, he makes frequent legal references some of which I know to be inaccurate (ie around the mental health act) and remains very preoccupied with his perceived persecution, of which this admission is part.

he is not elated or depressed in his mood

his thinking is unclear and his answers are often very circumstantial, in my view he is at times thought disordered he remains paranoid with a complex system involving his neighbour, the council, police and the NHS I suspect he suffers with auditory hallucinations he is insightful and will not accept any treatment

## **21**

**IMP** - I have made an application for a section 3. he suffers with a paranoid psychosis, most likely schizophrenia and there are risks to his health (mental), safety (retaliation) and to others-he has threatened his neighbours, filmed through their letter box etc. in response to his paranoia 6 caused considerable psychological distress.

if this is upheld then we will start a trial of antipsychotic treatment, I do not wish to do this prior to any section 3 as it will not be beneficial to take

|  | <p><b>1)</b> The clinical case argued that the patient has a chronic and enduring mental illness.</p>                                                                                                                                                                             |  |
|  | <p><b>2)</b> It is unclear whether the mental disorder responds to treatment as the patient has not engaged consistently with treatment.</p>                                                                                                                                      |  |

Order 09082018 Importance: High

Dear Trishna,

I write further to my email to you and Mrs Lorraine Cordell. Our allocation manager has advised us that as Mr Cordell is an existing council tenant, he is entitled to apply for a **transfer** of tenancy and cannot make a rehousing application.

I am advised that the application needs to be done via Mr Cordell's neighbourhood officer. I have emailed the officer and asked him to contact Mrs Cordell as soon as possible. Mrs Cordell is also encouraged to contact the Mental Health Team so they can support him with his MH issues and rehousing. I have amended the order to reflect the above and look forward to hearing from you.

Kind regards,

**Pre-Hearing Medical Examination of the Patient**

- 3+ A pre-hearing examination of the patient was indicated under the Rules.
- 4+ The interview with the patient took place on 8th November 2018.

**The Tribunal considered:**

- 4+ Oral evidence from Dr J. Greensides, RC; Nurse Thembi Magodlela; Mr Soobah Appadoo, CPN; Mr Simon Cordell, patient and Mrs Cordell, patient's mother.
- 5+ Written evidence from Dr M. Elia, ST6; Nurse Bibi Khodabux; Mr Soobah Appadoo, CPN  
Other material, namely Responsible Authority Statement of Information,
- 6+ Observers: Mrs Fiona Bateman, (Judicial Shadowing Scheme) and Student Nurse Skubik Jurisdiction.

**Preliminary and Procedural Matters**

- 7+ The tribunal is satisfied that it has jurisdiction to consider this application.
- 8+ The solicitor for the patient sought permission to submit a 6-page document from Mrs Cordell, the nearest relative.
- 9+ The solicitor indicated that the document expressed the nearest relative's views and those of a cousin.
- 10+ The panel considered the request and noted that Mrs Cordell's views as regards her son's detention and the housing problems he has experienced were fully reflected in the social circumstances report provided.
- 11+ The panel would also allow her to speak at the tribunal hearing if she wished to do so.
- 12+ In those circumstances, we did not accept the submission of the document.

**Grounds for the Decision**

- 4+ The tribunal is satisfied that the patient is suffering from mental disorder or from mental disorder of a nature or degree which warrants the patient's detention in a hospital for

assessment (or for assessment followed by medical treatment) for at least a limited period.

- 5+** The tribunal is satisfied that the patient's detention as aforesaid is justified in the interests of the patient's own health or safety, or with a view to the protection of other persons.
- 6+** The tribunal does not consider that it is appropriate to discharge the patient under its discretionary powers.

### **Reasons**

#### **1. Background**

- 12+** Mr Simon Cordell is aged 37 and is single and resides in council accommodation in the community.
- 13+** There is a longstanding history of difficulties with neighbours at his accommodation which was detailed in the reports.
- 14+** His background and history were documented in the statutory reports provided to the panel.
- 15+** He has been known to Adult Mental Health Services since **2014**.
- 16+** He has had varied diagnoses in the past and has been found not to require section under the Mental Health Act in **2014** and **2015**.
- 17+** He was however detained subject to Section 2 in August **2016** and was subsequently discharged by a Tribunal.
- 18+** The history indicated that he was discharged on prescribed medication and followed up by EIS.
- 19+** He reportedly did not engage with services or medication and was thereafter discharged from EIS.
- 20+** He has a current working diagnosis of schizophrenia.
- 21+** The current admission follows an incident in October 2018 which led to safeguarding concerns and the Enfield Adult North Locality Team's decision to arrange an MHA assessment.

**22+** Mr Cordell was detained subject to Section 2 on the 25.11.2018.

**72**

**The Responsible Authority's case**

- 7+** The clinical case argued that the patient has a chronic and enduring mental illness.
- 8+** It is unclear whether the mental disorder responds to treatment as the patient has not engaged consistently with treatment.
- 9+** Currently, the patient has been assessed without medication as Mr Cordell does not accept that he requires psychotropic medication.
- 10+** Mr Cordell presents with a number of persecutory, paranoid thoughts in relation to his beliefs that the police and his neighbours are in some way targeting him.
- 11+** Mr Cordell also exhibits thought disorder and some tangentiality in his response to questions posed.
- 12+** The professional evidence argued that the nature and degree of the mental disorder warranted the patient's continued detention of assessment which is justified in the interests of the patient's health, safety and the protection of others.

**The patient's view**

- 9+** Mr. Cordell was polite and courteous towards the panel.
- 10+** He told the panel that he did not accept that he has a mental illness or any need for medication.
- 11+** He said he experienced anxiety and distress at his accommodation.
- 12+** He indicated that the 48 allegations between 6.7.2016 and 2.10.2018 set out in the medical report from an Enfield Council Report regarding concerns and breaches of his tenancy agreement were all fabricated.
- 13+** He did not accept that he was in any way at fault.

was out of context.

**22+** He was unable to contain his thoughts on the question posed as to whether, reflecting on the matter now, he thought his response was inappropriate.

**23+** The nursing evidence in contrast to the panel's observation, indicated that the patient has not exhibited any psychotic symptoms.

**24+** On a positive note, there has been some improvement in the patient's presentation overall as he is no longer challenging, irritable or confrontational.

**The detention is justified in the interests of the patient's health, safety and the protection of others**

**12+** As to the patient's health, the professional evidence indicated that psychotropic medication is to be commenced and the patient's response to treatment is to be monitored.

**13+** The clinical view is that a period of treatment is now required to address the patient's psychotic symptoms.

**14+** The clinical view is that the patient is unlikely to engage as an informal patient and a previous attempt at treating the patient in the community was unsuccessful.

**73**

**15+** As to the patient's safety, there is historical information that Mr Cordell has attempted to self-harm in the past.

**16+** This is not a current concern.

**17+** Mr Cordell's difficulties at his accommodation may pose a risk of eviction.

**18+** However, further clarification is required during the period of the assessment on this point.

**19+** There is a potential risk of retaliation from others when he is behaving aggressively towards others.

**20+** As regards the protection of others, Mr Cordell has entrenched and longstanding views and there have been incidents of aggression involving his neighbours, council officials, and the police prior to admission.

**21+** He showed little capacity for self-reflection or remorse during his evidence when he was questioned about his telephone interaction with Mr Appadoo.

**22+** We note that the allegations of physical and verbal altercations with his neighbours were relied upon to obtain an order for an injunction as recently as the 9.1.2018 which was later discharged in July 2018 due to the patient's lack of capacity to understand the conditions of the injunction due to his psychotic illness.

#### **Our conclusions**

**4+** We accept the clinical evidence as to the nature and degree of the mental disorder.

**5+** We have no doubt that there is some element of neighbour dispute; however, Mr Cordell's response to such triggers appear to be rooted in a mental disorder which will need to be assessed during this admission.

**6+** We also accept that the detention is justified in the interests of the patient's health, safety and the protection of others for the reasons set out above.

#### **Exercise of discretion**

**2+** There were no special features of this case which persuaded us to exercise our discretion to discharge.

#### **Statutory criteria**

**2+** The grounds and statutory criteria are satisfied.  
The section is upheld

Chase Farm Mental Hospital on an Assessment Wing!

00:15:

I am still awake working on my computer, and I am really hungry I decided to ask the staff on duty if I could go to the petrol station to buy some food  
When I arrived at the office there was 3 staff available and no other persons in the communal area

I explained that because of the extra time that I have been putting into my work

I burn away more energy, and this sometimes leaves me starving hungry.

I got laughed at and told no, I asked why and got told that this is because it was late at night

This led me to explaining in a very polite voice again about how hungry I was and further explain that I am a fully-grown man who is only under an assessment 2 of the Mental Health Act.

10:30: -- Doctor Greenside came into my room and asked me to have a meeting

21:49: I was inside of the communal hall eating some toast at toast time and drinking some hot chocolate  
While sitting down I could see into the staff office as it has a clear glass window, and I could see Bibi my care coordinator she left the office and went up to the medication room.

“While this was going on I watch Nurse Daisy come into the same room, I had noticed that she had been funny with me since I got here in so many words that she never took a liking to me, what she said was how are you feeling today to me in front of every one in a sarcastic voice I replied to her comment by saying the following How do you think I am feeling today?”  
She looked at me funny and gave no reply as she done, she started to walk out of the room. She walked up the corridor and went into the medication room were Bibi was.

I soon afterwards noticed her presence in the room once again but this time she had medication with her.

I studied her as she walked up to the patient beside me with caution., due to my earlier conversation with Doctor Greenside and with rightfully cause as she

|  | <p>Enfield AMHP Service<br/>T/C to Lorraine Cordell mother on 07807333545. She confirmed that she will be available tomorrow and can attend the Ward at 2.00pm.</p> <p>She told me at length about her concerns that her son had been misdiagnosed and that the evidence against him that he has mental illness is based on information from Enfield Council who she considers have been supporting allegations from his neighbours, ignoring his complaints that the neighbours are causing him serious noise nuisance. She said she had attended a court hearing on 9th August when Enfield housing had been giving evidence to evict Simon from his flat. Lorraine said that the Court was impressed with her copies of her evidence that disputed the Evidence from Enfield and no Eviction notice was granted. She told me he has colour CCTV that could give documentary evidence that he was in his flat when instances occurred outside.</p> <p>She also said that in the past Simon had agreed to remain in hospital but had been discharged two days later due to lack of beds.</p> <p>She told me that Simon had been given leave to visit his dog who since Simon's admission was found to have cancer and has undergone major surgery. She had felt he needed time to be with the dog, to which he is devoted, and planned to take him to visit her home today.</p> <p>We agreed to meet on the ward tomorrow Wed 14.11.2018 at 2.00pm Dr Rao Independent S12 agreed to meet us on the ward at 2.00pm.</p> <p>Dr Greensides agreed that he would be available on the ward. Simon has been very calm on the ward until the matter of him taking medication was raised. He thought there was sufficient evidence for a new med rec for Section 3 to be completed which he will be doing.</p> <p><b>(41) 13/11/2018, Tuesday</b><br/> <u>The Doctor's Folder / pub Book Issue: 1!</u><br/> <u>Stage 4</u><br/> <u>Folder 4</u><br/> Originator Details: 13 Nov 2018</p> | <p><b>41)</b> On the <b>**/**/20**</b> it is said that</p> |

Subject: Re: Simon Cordell

Dear Ludmilla and Lemmy

As you will be aware Simon is in hospital, today I was at the hospital with his cousin for a meeting, I got a call regarding the person who lives at 113 a person that knows us and also Ambrose from 113 stated that Simon had beat him up, then that changed to a person who had been staying at Simon flat beat him up. And that now due to this people was going to come and beat us up. Then it changed again to the person who beat Ambrose from 113 up come from my sons flat. Until today I have not wanted to say anything but I think this is going too far now. I could say a lot more but I feel it is pointless as you have done nothing with anything I have said. Since Ambrose has moved in the main door lock has been ripped out and there is drug taking in the block on the level of 113 and people coming in and out of 113 at all times which I do have a few pictures off people taking drugs. After our meeting I went to Simon flat to check on it and put gas and electric on as the Electric had run out, as no one is staying there. This is not the 1st time we have been threatened by 113 and his friends for something we have not done or my son has not done. I have been told that Ambrose is taking drugs but do not know how true this is as it is from a 3 person. When I got home and spoke to the person who called me it seems Ambrose was badly hurt and I believe stabbed. This has nothing to do with my son or my family and I believe now Ambrose is aware this had nothing to do with us or my son, but I am sick of everything being blamed on my son, and the phone calls we get when something goes on in the block. I believe there is a lot Enfield Council is not aware off, and are turning a blind eye just so the blame can be put to my son. I have now seen the reports you have put into the MH services so have this in black and white now so it cannot be said it is not come from you. I will be talking to the MH tomorrow regarding a letter relating to a 2-bedroom property and would like my son moved as soon as possible. I do not think it is right you are trying to get my son to remind in hospital by what is being passed to the MH services via Enfield Council this needs to stop the worst part is that it is

incorrect information, which can be proven. There is more I can say but I feel there is very little point as really all Enfield Council has wanted to do is blame my son for everything. Without not one meeting without looking at one bit of Evidence we have and we do have real evidence which the police have seen why do you think my son was not arrested was it due to you thinking they just could not be bothered no it was if they arrested him it

**4309,**

would be unlawful due to what they saw. I want this email kept Strictly confidential and not sent to anyone without my written Permission. I look forward to hearing from you.

Regards

Lorraine Cordell

Simon was assessed for further detention under S 3 in the quiet room on Dorset Ward with Dr Rao S12, Maggie Garrod AMHP, Larry Ryan Trainee AMHP, Lorraine Cordell, Mother, Jerome, Cousin. Simon was polite and appropriate. At the outset it was noticed that Simon had a mobile phone in his hand and was asked if he was recording the assessment. I

informed him that he would require our consent prior to recording. He claimed that he had a legal right to do this. I asked the other professionals present if they objected and they did not. I reinforced with Simon that consent has to be given. Simon talked at length about his experiences of being victimised by the police when asked about reason for arrest. He reported injustices about forged statements, curfew being in place since **2014** which included any area apart from a residential area. He admitted the police believed he had spat but denied doing this. There seemed no evidence of thought disorder. There was some pressure of speech which appeared to be linked to his anxiety that he could be detained under S3 and his need to give us as comprehensive version of his situation in the shortest possible time. No ideas expressed of intention to self-harm ideas or of suicidality. Mother backed up all of his assertions about neighbours making noise. Cousin Jerome claimed to have heard the noises in the flat which he reported stopped once he considered the neighbours in flat above saw him leaving the property and he felt they stopped making noise from then. Denied having any mental health issues but agreed to remain in hospital as an informal patient and would consider taking medication providing, he is seen by a second opinion doctor. It is reported that a referral has been made for a Forensic Assessment by the Care Coordinator and this should be followed up. Dr Rao did not make a recommendation for detainment under S3 as she did not feel the criteria was met as she was not in a position to refute the evidence that Simon gave. No evidence of Simon presenting a risk of harm/safety to himself or others, no obvious risk of neglect.

**Conclusion**

He does not accept that he has a mental illness but is willing to stay in hospital so that, in his own words, "Dr Greensides can get to know me better". Simon will be willing to take medication if a doctor giving a second opinion can justify the need to him. Simon was encouraged to cooperate with Dr Greenside and the community team when discharged.

I have emailed his CC about arranging an outpatient consultant review I have also emailed the forensic consultant regarding an outpatient forensic opinion I spoke with PC Tom yesterday, 07506523950. the police intend on charging him with assault. | <p>16/11/2018 Lorraine (mother) left a message at reception for me to call her back. -5A T/C with Lorraine. She said she is not happy that Simon was discharged from hospital. I said that I did not see any value for the ward to keep him as he is adamant that he does not have a mental illness and he has constantly declined medications. She said that Simon wanted to build up a relationship with the ward? She also mentioned that I have said that I will help Simon with housing issues; I clarified that I at no point have I said this but what I said that if Simon agrees to engage with CC in the community, I am more than happy to talk/listen to him. I reiterated that his housing issues does not fall under the remit of the Community Mental Health Team and that he/should liaise with the Enfield Council directly and/or challenge the eviction via the courts. She said that she plans to liaise with the Court. I said that I am happy to arrange a review with his Psychiatrist if that what he wants; she said that she will discuss this with Simon and call be next week.</p> <p>From Dr Greensides RIO entry:</p> <ul style="list-style-type: none"> <li>-He does not want to see CC</li> <li>-He does not want to see Psychiatrist in the community</li> <li>-He has agreed for nursing staff to call him (for 7 day follow up)</li> </ul> <p>(53) <b>16/11/2018,</b><br/> <b><u>Doctor Greenside</u></b><br/> Came into My Hospital Room ++++<br/> After getting released from the hospital wing Dorset I went with my mother who had picked me up and went to her home, for a little while and then on after head back to my own flat.</p> <p>(54) <b>16/11/2018,</b><br/> <b><u>I Came back Home</u></b><br/> After illegal getting detained at Chase Farm Hospital, I came back home.<br/> Jam Stayed with me till late. insufficient evidence for 136. Forensic referral sent on 17/10

- **25 Oct** - Simon was arrested as the police called to his flat re him breaking a harassment order and he assaulted the police who attended. He was taken to Wood Green police station. Found to be him thought disordered, hypomanic with flight of speech and grandiose delusions. Detained under MHA.
- On initial review he had pressured speech, difficulty interrupting, appeared elated in mood, and had grandiose beliefs e.g. started talking about owning a couple of local festivals and engaging in multiple charities involving children. At the time he has limited insight; he does not want any medication, and has never believed he has a mental health disorder.
- His UDS was positive to THC.
- He immediately appealed his section. The tribunal was done on 8/11/18 which he lost.
- On 5/11/18, Dr Greensides reviewed the patient and made an application for Section 3 as there are risks to his health and to others. It was felt that it would not be beneficial to take against his will unless he is subsequently detained on a section 3. However, there was a delay in the assessment so he was started on Risperidone 2mg ON which he refused to take.
- He had a MHAA for a Section 3 on 14/11/18; it was felt that there was no evidence of Simon posing a risk of harm/safety to himself or others and there was no obvious risk of neglect. As a result, he was not sectioned.
- It was decided that as a result of this, there was no reason for Simon to remain on an acute psychiatric ward as we are unable to treat him. He was discharged as a result, with Dr Greensides emailing his CC about arranging an O/P consultant review and emailed the forensic consultant regarding an O/P forensic opinion.
- Thank you for your continued care.
- Here is his MSE on admission:

- Simon is a 37-year-old male, who was appropriately dressed. He engaged in conversation and made eye contact throughout. Calm and polite, no aggression but did become mildly restless at points.
- Pressurised speech, difficult to interrupt. Flight of ideas noted.
- Described mood as good. High levels of energy and labile mood.
- Paranoid delusions about the police and MH services and some grandiose delusions noted.

**91**

- No perceptual abnormalities noted. Orientated to TPP
- Lacks insight, does not believe he has a MH condition and not willing to engage with services historically or currently. Unlikely to take medication willingly.

Hi Alev  
Further to your enquiry regarding Simon Cordell.  
Please see the update below from [Debbie Morgan](#).  
SC was discharged from hospital on **15/11/18** having  
been detained under the Mental Health Act for the  
purpose of assessment of his mental health. SC did  
not believe he required to be in hospital or wish to  
accept the proposed treatment that was offered.  
[As there is insufficient grounds or risk for further  
detention or to take any further intrusive measures  
against his will](#), he has been discharged.  
SC does not believe he has a mental illness that  
requires him to take treatment or to maintain on-  
going engagement with mental health services.  
[He appears disappointed with services in which he  
perceives to have received from both housing and  
metropolitan police believing he is being targeted for  
things he has not done.](#)  
[His assessment has not elicited he has care needs  
warranting supported accommodation or a package  
of care to sustain independent living as he can be  
adequately supported through universal services.](#)  
He presents with adequate daily living skills and can  
live in general needs housing.  
[He appears to be young man who has particular  
beliefs, which may lead to him having differences in  
opinion with others, which may impact on  
relationships with others; particularly those in  
positions of authority.](#)

His mental health/psychological state therefore remains fragile; however, the risk is not such that he can be forced to engage with services.

**4315,**

He was offered follow-up by mental health services in the community to which he declined, although agreed the he can be contacted by nurses from the ward to check on progress following discharge.

He has been allocated a care coordinator (Soohah Appadoo, North Locality Team - 0208 379 4142) who will continue to try to engage him to build a relationship.

SC describes his main presenting need to be that of his relationship with particular neighbours within his block, whom he believes to be intentionally causing him a nuisance by way of making noise, and reports feeling disbelieved and unfairly treated by the housing department and police.

He therefore wants to be moved from his current accommodation.

His mother approached the ward Consultant for a supporting letter to provide housing for a 2-bedroom property citing she is his main carer. As there is no evidence to suggest SC requires to be looked after due to having care needs requiring a live-in carer her request was declined, she was advised to suggest housing put their request in writing should this be housing's request. Mental Health would support relocation to alternative accommodation to reduce further tensions between the residents within the block.

Hi mother advised that SC has/or is in the possess of eviction, and that he was discharged from hospital with no support which does not seem to be the case. Support has been offered which has been declined and will continue to be offered to assist in managing the current situation or avoid and/or mitigation a situation of eviction.

Dear Basit, Soobah,

I hope you are well. I'm just following up on the discharge of the above. It is a shame that it was not possible to start treatment in him but I see that a concerted attempt was made. I have put a note on RiO. I note that Simon was documented to be thought disordered and to experience delusions but to be refusing to take treatment or to see a psychiatrist in the community following not being detained under s3 MHA. He was referred for a forensic assessment but of course we have no additional powers to compel him, so it is difficult for us to add more in the immediate aftermath. We have not closed the referral made to us. Although it seems unlikely that Simon would agree to attend a forensic assessment given the above, I wonder whether the most helpful course of action to take would be to suggest/arrange a professionals' meeting, involving Enfield Housing and also a representative from the Police (perhaps the officer in the case in relation to the assault charge) or

even MAPPA (he could be referred here?). FICS would be able to attend this if helpful.  
Tim

Chase Farm Mental Hospital on an Assessment Wing!

Monday Morning, I awoke to the now normal daily routine and soon after spoke to a kind gentleman who is a part of the estate management team, he oversees my problem of cause and retried it with ease E.G “broken bathroom window due to not being able to shut correctly”

What doctor green explained to me; next I think I took very well. He explained to me that he wanted to put me onto a section three of the Mental Health Act 1983.

How it happened!

Just before lunch time Doctor Greenside came to my room and asked me for a meeting with me. I agreed to what he had asked and walked with him into another room, when sitting down together we were both left quietly alone and then Doctor Greenside started to explain to me that he wanted to place me of the section 2 of the Mental Health Act 1983 and on to A section 3 of that act.

I took my time and asked him why he believed this was warranted as to the initial reasons to why I had been placed on a section two had been proven to be inaccurate to the assessment documentation of its statement of facts.

We went through what I had gotten accused of when first getting detained to hospital, which is: --

**1.** Mr. Cordell is known to psychiatric services but has not engaged with them in recent years.

This information is undermining towards the defamation of the definition of my character and influences a person beliefs into believing that I have gotten treated under the Mental Health Act 1983 as a person who has been diagnosed with a mental illness, to which I have not and to further my issues of raised concern it continues to state that I have not then on after accepted treatment as it states that I have not engaged with the Mental health Service in the following years to pass. This information is also not an 100% accurate fact towards the statement of the maker. As I have personal Telephoned Lucas house and also that of the Silver Street Mental
