Referral from mother. (But she does not want him to know of it) Patient known to mental health services was assessed under the MH Act last year but not deemed sectionable. Mother says she has been asking for help all over but got nowhere. She describes her son as not eating, not sleeping, he is paranoid saying people are talking about him or laughing at him. He believes the government is advertising things about him. That the TV is talking about him and talking directly to him. She reluctantly admits that he smokes cannabis adding "not a lot" She is adamant that her son should not know of this referral as she is frightened to sever the fragile relationship, she has with him. Spoke with Mrs Cordell again. Clearly, she does not want his son to know that she is requesting help.

She last saw him on

and spoke with him regularly on the Telephone. She told me he is not well. He has locked himself in his room, believing TV is talking about him. He is not eating properly and talks about killing himself. Mrs Cordell became rather irate, stating * I don't want you to tell him that I am requesting help, just leave him, I have enough problem'.

Plan - Discussed with Team - Referral to CRHTT. MHA assessment could be needed if he does not engage with HTT.

		<p>I had telephone contact with Simon's Mother Lorraine Cordell [REDACTED] today at 10.35. She told me Simon is refusing to seek help or attend his GP's surgery. He did not take the medication that was prescribed when he saw Dr Jarvis last March 2014. It appears that Simon is not consenting to seek help with regards to his mental health. I have however advised Mrs Cordell that she encourages to visit his GP or she could request another assessment under the MHA 1983 if she has concerned that Simon is at significant risk to himself and others. I have also advised that she could ring the police / LAS and Simon could be taken to A&E in an emergency.</p>

EAS - T/C to Simon's mother, who is his de facto carer: She said Simon's grandmother (her mother) had a diagnosis of BPAD and was detained formally multiple times: later her diagnosis was changed to SCZ and she responded well to Clozapine She is realistic about Simon's potential engagement and aware that things may not progress smoothly. She is keen to have support for herself and a carer's assessment while Simon is under the care of EIS - I told her about Enfield Carer's Centre She gave history that that large metal gate has gone up again recently: and that in her view Simon has been deteriorating for the past year

EAS *PLEASE NOTE* Mother is very keen that Simon not know she made the referral to mental health services. Since his father called the HUB, they have had no contact. She is Simon's main support at the moment and has concerns that Simon knowing of her involvement would damage this relationship and negatively impact on him.
